▲▼ Denotes increase/decrease in number of positions offered of more than 10 percent and 10 positions between 2007 and 2011. Neurological Surgery joined in 2009. ACGME created a new PGY-1 Plastic Surgery (Integrated) specialty in 2009. Combined/coordinated Plastic Surgery programs (which are not integrated) now appear under PGY-2 positions. Many Anesthesiology and Emergency Medicine programs have converted their positions from Advanced (PGY-2) to Categorical (PGY-1) over the period, affecting the trends in those specialties.

▲ Denotes that the percentage increase in active applicants for this group was greater than the overall increase of 9.5% for all active applicants between 2007 and 2011.

**Note:** Match rates are based on all active applicants regardless of their ranking behavior. Therefore, applicants who matched to PGY-1 positions are counted as matched even if they ranked and did not match to a PGY-2 position. Applicants who ranked only PGY-2 programs are counted as unmatched in this table because they did not match to a PGY-1 position.

▲ Denotes increase/decrease in number of positions filled by U.S. allopathic seniors of more than 10 percent and 10 positions between 2007 and 2011. Neurological Surgery joined in 2009. ACGME created a new PGY-1 Plastic Surgery (Integrated) specialty in 2009. Combined/coordinated Plastic Surgery programs (which are not integrated) now appear under PGY-2 positions. Many Anesthesiology and Emergency Medicine programs have converted their positions from Advanced (PGY-2) to Categorical (PGY-1) over the period, affecting the trends in those specialties.

Neurological Surgery joined in 2009. ACGME created a new PGY-1 Plastic Surgery (Integrated) specialty in 2009. Combined/coordinated Plastic Surgery programs (which are not integrated) now appear under PGY-2 positions. Many Anesthesiology and Emergency Medicine programs have converted their positions from Advanced (PGY-2) to Categorical (PGY-1) over the period, affecting the trends in those specialties.
