NRMP Board of Directors

NATIONAL RESIDENT MATCHING PROGRAM

2121 K Street, NW
Suite 1000
Washington, DC 20037

The NRMP is governed by a 19-member Board of Directors, including:

- Chair, Chair-Elect, and Secretary/Treasurer
- Two graduate medical education program directors
- Three medical students
- Three resident physicians, one of whom is an international medical graduate
- One public member

Officers

- **Chair:** Susan Guralnick, M.D., Associate Dean of Graduate Medical Education, University of California, Davis
- **Chair Elect:** Steven J. Scheinman, M.D., Dean of the Commonwealth Medical College
- **Secretary/Treasurer:** Kenneth B. Simons, M.D., Sr. Associate Dean for GME and Accreditation, Medical College of Wisconsin
- **President and Chief Executive Officer:** Mona M. Signer, M.P.H., National Resident Matching Program

Board Members, 2017-2018

- C. Bruce Alexander, M.D., Professor of Pathology Emeritus, University of Alabama at Birmingham
- Zaid I. Almarzooq, M.B.B.Ch. Resident Physician, Weill Cornell Medicine
- Keith Armitage, M.D., Vice Chair for Education, Department of Medicine, University Hospital Case Medical Center
- Jennifer Bai, M.D. Candidate, University of Maryland School of Medicine
- Carol D. Berkowitz, M.D., F.A.A.P., F.A.C.E.P., Executive Vice Chair, Department of Pediatrics, Harbor-UCLA Medical Center
- Deborah S. Clements, M.D., Chair, Family and Community Medicine, Northwestern University Feinberg School of Medicine
- Donna Elliott, M.D., Ed.D., Senior Associate Dean for Student and Educational Affairs, Keck School of Medicine, University of Southern California
- Jessica G. Fried, M.D., Resident Physician, University of Pennsylvania
- Holly Humphrey, M.D., Dean for Medical Education, University of Chicago Pritzker School of Medicine
- Kipp Johnson, M.D./Ph.D. Candidate, Icahn School of Medicine at Mount Sinai
- Marc J. Kahn, M.D., MBA, F.A.C.P., Senior Associate Dean for Admissions and Student Affairs, Tulane University School of Medicine
- Elliott D. Kozin, M.D., Resident Physician, Massachusetts Eye and Ear Infirmary, Harvard University
- Daniel W. Morrissey, O.P., Public Member
- Mallika Sabharwal, M.D. Candidate, University of Louisville
- Edward S. Salsberg, M.P.A., Director of Health Workforce Studies, Health Workforce Institute, George Washington University
- Maria C. Savoia, M.D., Dean for Medical Education, University of California, San Diego

NRMP Specialties Matching Service: Program Results for 2018 Appointments	90
--	----

About the Specialties Matching Service®

The National Resident Matching Program (NRMP) is a private, not-for-profit corporation established in 1952 to optimize the rank-ordered choices of applicants and graduate medical education program directors. The NRMP is not an application processing service; rather, it provides an impartial venue for matching applicants' and program directors' preferences for each other.

The NRMP Specialties Matching Service® (SMS®) conducts Matches for advanced residency and fellowship positions. The NRMP conducted its first Fellowship Match in 1984 for Colon and Rectal Surgery, and for the 2018 appointment year provided services for 63 subspecialties within 25 separate Matches. A new specialty, Breast Imaging, joined the Radiology Match for 2018 appointments.

A complete list of the subspecialties participating in the SMS for the 2018 appointment year is shown in Figure 1.

Fellowship Matches occur throughout the year, and each requires its own registration process with the NRMP. Fellowship positions generally begin in July. Because Fellowship Match appointments may begin anywhere from 6 to 17 months after their Match Days, data are reported for the appointment year instead of the Match year.

For more information about the NRMP's Specialties Matching Service, please visit: <http://www.nrmp.org>.

Data and reports for the NRMP's Main Residency Match® can be found at: www.nrmp.org/main-residency-match-data/. Instructions on how to request additional data also are provided.

Introduction

This report summarizes all Fellowship Matches conducted by the NRMP Specialties Matching Service® (SMS®). Data are provided for Matches conducted in 2017 and early 2018 for appointments beginning in July 2018. Graphs display five-year trend data by specialty for the numbers of programs, positions, and applicants as well as match rates. Numbers of positions offered and filled for each participating program are listed at the end of this report.

The 2018 report includes one new specialty: Breast Imaging.

The 2018 appointment year was the largest in the history of the SMS. The Matches encompassed:

- 4,357 programs in 63 subspecialties offering 10,149 fellowship positions; of those, 8,753 (86.2%) were filled

- Of the 4,357 participating programs, 3,403 (78.1%) filled all positions when the matching algorithm was processed

- 10,778 applicants participated in at least one Fellowship Match and 8,753 (81.2%) obtained positions

Numbers of applicants, matched applicants, positions, and programs offering positions between 1993 and 2018 are shown in Figure 2 below.

Questions about the Specialties Matching Service should be directed in writing to:

Figure 2 Numbers of Applicants and Programs Participating in the Specialties Matching Service® (SMS®) by Appointment Year, 1993-2018

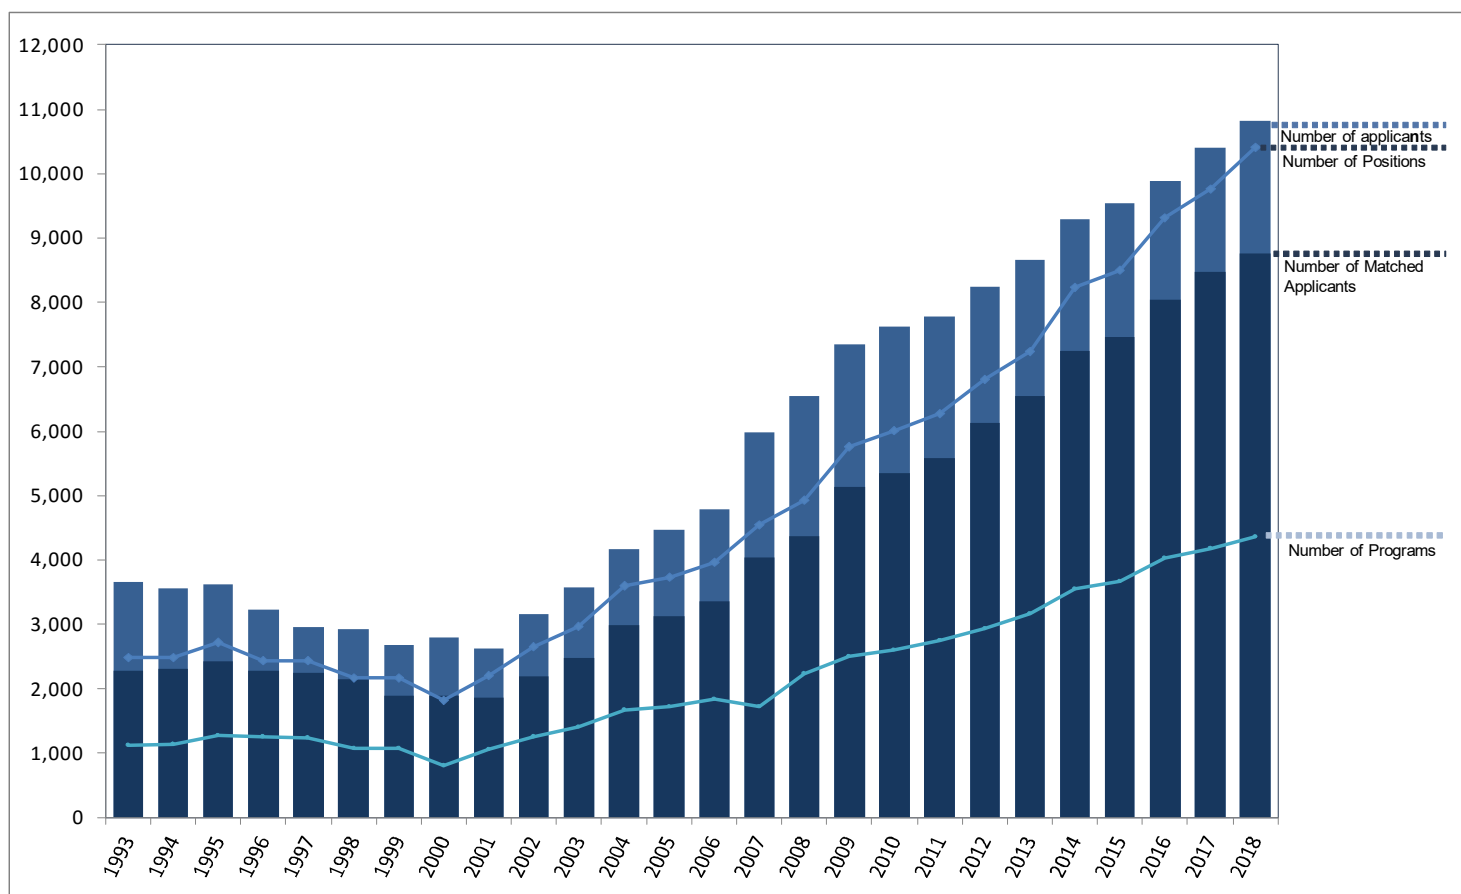

Table 1

Table 1 provides a summary of the SMS® Fellowship Matches for appointment year 2018.

Using Allergy and Immunology as an example:

- The first two columns (“No. of Applicants”) show that 93 U.S. allopathic medical school graduates and 141 total applicants ranked at least one Allergy and Immunology program.
- The next two columns (“Positions Offered” and “No. of Pgms”) show that a total of 140 positions were offered by 85 Allergy and Immunology programs.
- The “No. of Matches” columns show that of the 140 positions offered in Allergy and Immunology, 83 were filled by U.S. allopathic graduates, and 123 were filled overall.
- The percent of positions filled (calculated as “No. of Matches” divided by “Positions Offered”) can be found in the “% Filled” columns. Of the fellowship positions offered in Allergy and Immunology, 59.3 percent were filled by U.S. allopathic graduates and 87.9 percent were filled overall.
- The “Ranked Positions” columns show that the 85 Allergy and Immunology programs were ranked 811 times by U.S. allopathic graduates and 1,161 times by all applicants (including U.S. allopathic graduates).
- The last column (“Unfilled Programs”) indicates that 15 Allergy and Immunology programs had at least 1 unfilled position after the matching algorithm had been processed.

Of the 63 participating subspecialties, 33 filled 90 percent or more of the positions offered and 20 filled less than 75 percent of the positions offered. Eleven specialties filled 75 percent or more of their positions with graduates of U.S. allopathic medical schools, and 25 specialties filled less than 50 percent of their positions with U.S. allopathic graduates.

* In most cases specialties are grouped by the ACGME Review Committees (RCs). Some specialties are under the auspices of multiple RCs and some specialties (or programs within a specialty) are not accredited by the ACGME. In those cases the fellowship programs are grouped under one specialty deemed appropriate. For 2018 appointments, the grouped specialties and their RCs are:

- Brain Injury Medicine: Neurology and Physical Medicine & Rehabilitation; also includes programs not accredited by the ACGME
- Female Pelvic Medicine and Reconstructive Surgery: Urology and OB/GYN
- Geriatric Medicine: Family Medicine and Internal Medicine
- Hand Surgery: Orthopaedic Surgery, Surgery, and Plastic Surgery
- Medical Toxicology: Emergency Medicine and Preventive Medicine
- Pediatric Emergency Medicine: Pediatrics and Emergency Medicine
- Pediatric Surgery: Surgery; also includes programs not accredited by the ACGME
- Sleep Medicine: Internal Medicine, Neurology, Pediatrics, and Psychiatry
- Sports Medicine: Family Medicine, Emergency Medicine and Physical Medicine & Rehabilitation
- Surgical Oncology: Surgery; also includes programs not accredited by the ACGME

** Not accredited by the ACGME

+ Applicants can rank multiple specialties within the combined specialties Matches; in addition, a small number of applicants participate in more than one Fellowship Match within a single appointment year.

++ Graduates of U.S. allopathic medical schools

Table 2

Table 2 shows the number and percent of matches in each specialty by applicant type. Of the specialties offering at least 30 positions:

- Pediatric Surgery had the highest proportion filled by graduates of U.S. allopathic medical schools (92.9%) and Pulmonary Disease had the lowest (13.3%). The top five specialties in the percentage of positions filled by graduates of U.S. allopathic medical schools are Pediatric Surgery (92.9%), Hand Surgery (90.6%), Female Pelvic Medicine and Reconstructive Surgery (89.8%), Medical Toxicology (88.6%), and Gynecologic Oncology (88.3%).
- The top five specialties in the percentage of positions filled by graduates of osteopathic medical schools are Sports Medicine (34.6%), Adolescent Medicine (19.0%), Hospice and Palliative Medicine (17.3), Child and Adolescent Psychiatry (15.4), and Developmental and Behavioral Pediatrics (15.2).
- The top five specialties in the percentage of positions filled by U.S. citizen graduates of international medical schools are Pulmonary Disease (33.3%), Pediatric Pulmonology (23.4%), Interventional Pulmonology (21.9%), Developmental and Behavioral Pediatrics (21.2%), and Child and Adolescent Psychiatry (19.5%).
- The top five specialties in the percentage of positions filled by Non-U.S. citizen graduates of international medical schools are Abdominal Transplant Surgery (53.7%), Pulmonary Disease (50.0%), Endocrinology, Diabetes, and Metabolism (38.3%), Nephrology (37.9%), and Interventional Pulmonology (34.4%).

* In most cases specialties are grouped by the ACGME Review Committees (RCs). Some specialties are under the auspices of multiple RCs and some specialties (or programs within a specialty) are not accredited by the ACGME. In those cases the fellowship programs are grouped under one specialty deemed appropriate. For 2018 appointments, the grouped specialties and their RCs are:

- Brain Injury Medicine: Neurology and Physical Medicine & Rehabilitation; also includes programs not accredited by the ACGME
- Female Pelvic Medicine and Reconstructive Surgery: Urology and OB/GYN
- Geriatric Medicine: Family Medicine and Internal Medicine
- Hand Surgery: Orthopaedic Surgery, Surgery, and Plastic Surgery
- Medical Toxicology: Emergency Medicine and Preventive Medicine
- Pediatric Emergency Medicine: Pediatrics and Emergency Medicine
- Pediatric Surgery: Surgery; also includes programs not accredited by the ACGME
- Sleep Medicine: Internal Medicine, Neurology, Pediatrics, and Psychiatry
- Sports Medicine: Family Medicine, Emergency Medicine and Physical Medicine & Rehabilitation
- Surgical Oncology: Surgery; also includes programs not accredited by the ACGME

** Not accredited by the ACGME

Table 3

The ratios of fellowship positions to active applicants are provided in Table 3 for appointment years 2014 through 2018 and are shown graphically in Figure 3 for appointment years between 2002 and 2018. Active applicants are defined as those who submit certified rank order lists of programs. The red line in Figure 3 indicates the point at which there are equal numbers of positions and applicants.

- The number of fellowship positions per *active U.S. allopathic graduate* was 1.69 in 2018. Across all years, there were more fellowship positions offered than there were U.S. allopathic graduate applicants.
- The ratio of fellowship positions to *all active applicants* was 0.94 for the 2018 appointment year, same as 2016 and 2017.

Table 3 Number of Positions per Active Applicant, 2014 - 2018

Year	Number of Positions	Active Applicants		Positions Per Active Applicant	
		U.S. Allopathic Graduates	All	U.S. Allopathic Graduates	All
2014	8,243	4,985	9,297	1.65	0.89
2015	8,503	5,172	9,538	1.64	0.89
2016	9,320	5,482	9,893	1.70	0.94
2017	9,766	5,766	10,410	1.69	0.94
2018	10,149	6,002	10,778	1.69	0.94

Note: Applicants who withdrew or did not rank programs are excluded.

Figure 3 Positions per All Active and Active U.S. Allopathic Graduate Applicants, 2002-2018

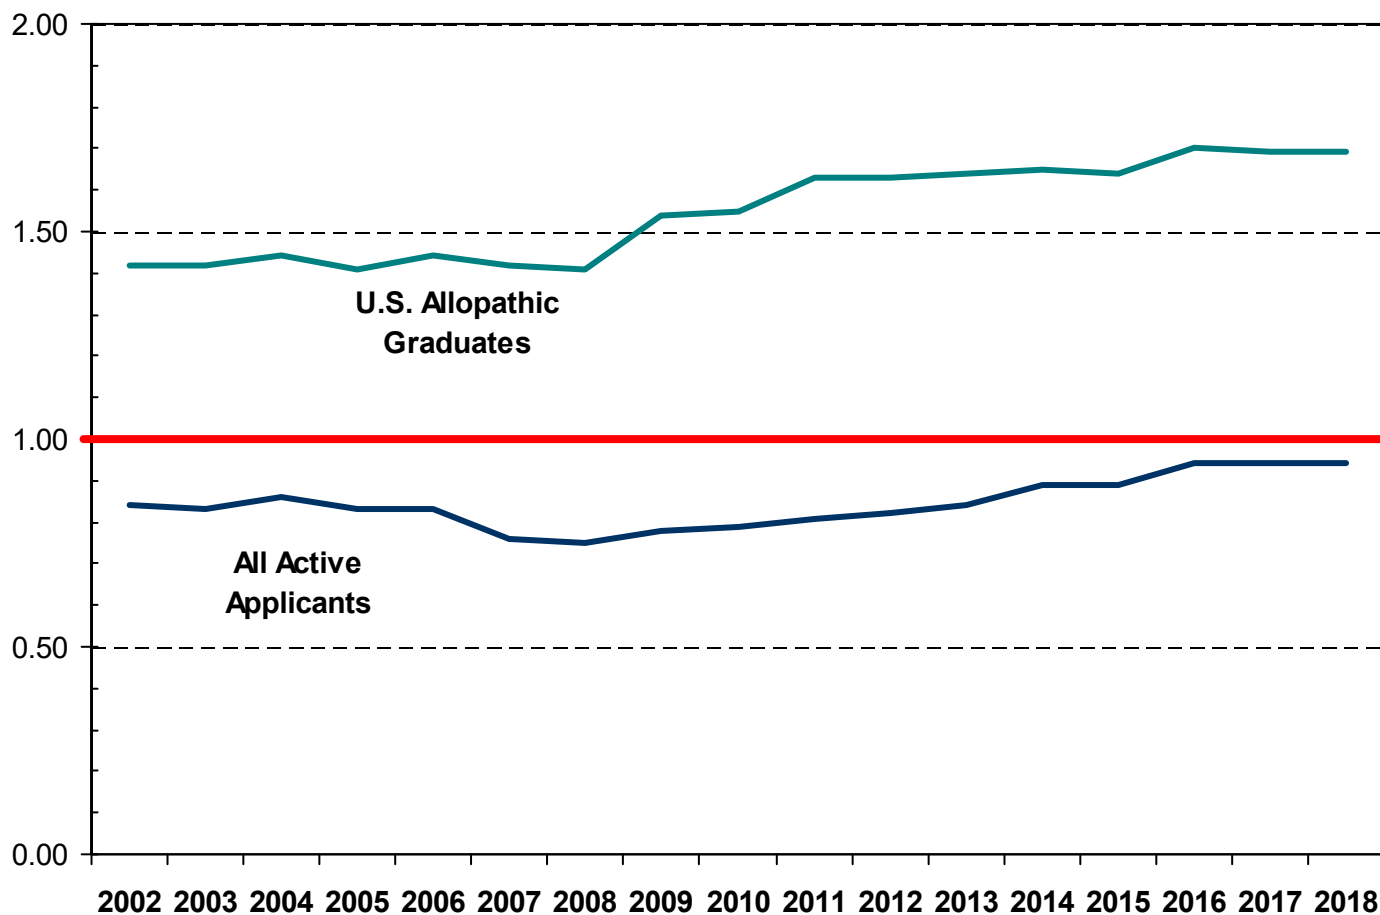

Table 4

Table 4 displays applicants by applicant type in the SMS® Fellowship Matches between 2014 and 2018.

Applicants are grouped based on citizenship and medical school of graduation. For example, *graduates of U.S. allopathic medical schools* are graduates of U.S. allopathic medical schools regardless of citizenship. *U.S. citizen graduates of international medical schools* are defined as U.S. citizens who are graduates of international medical schools, and *non-U.S. citizen graduates of international medical schools* are non-U.S. citizen graduates of international medical schools.

The total number of registrants for the 2018 appointment year was 11,230, an increase of 398 over 2017. More than half of the increase was due to the greater number of U.S. allopathic medical school graduates (234). There also were increases in the numbers of non-U.S. citizen graduates of international medical schools (126), and graduates of osteopathic medical schools (112). In comparison, the number of U.S. citizen graduates of international medical schools declined by 81.

An *active applicant* is one who submits a certified rank order list of programs. Between 2014 and 2018, the number of active applicants rose 15.9 percent from 9,297 to 10,778. Among the different applicant groups, graduates of U.S. allopathic medical schools had the largest increase in number (1,017) and graduates of osteopathic medical schools had the largest percentage increase (47.3%). Compared with 2017, the number of all active applicants increased by 368 (3.5%), attributable to the greater number of graduates of U.S. allopathic medical schools (236 or 4.1%), graduates of osteopathic medical schools (94 or 9.3%), and non-U.S. citizen graduates of international medical schools (100 or 4.6%). The number of U.S. citizen graduates of international medical schools experienced a decrease of 68, the first decline since 2014.

For 2018 appointments, 81.2 percent of all active applicants matched to a fellowship position. Among different applicant groups, graduates of U.S. allopathic medical schools enjoyed the highest match rate (89.1%). Graduates of osteopathic medical schools had a match rate of 76.8 percent, down from 81.1 percent in 2017. Both U.S. citizen and non-U.S. citizen graduates of international medical schools had match rates close to 70 percent.

The trends in the numbers of active applicants and their match rates can be seen graphically in Figure 4.

▲ Denotes that the percentage increase in active applicants for this group was greater than the overall increase of 15.9% for all active applicants between 2014 and 2018.

Figure 4

Number of Active Applicants and Percent Matched, 2014 - 2018

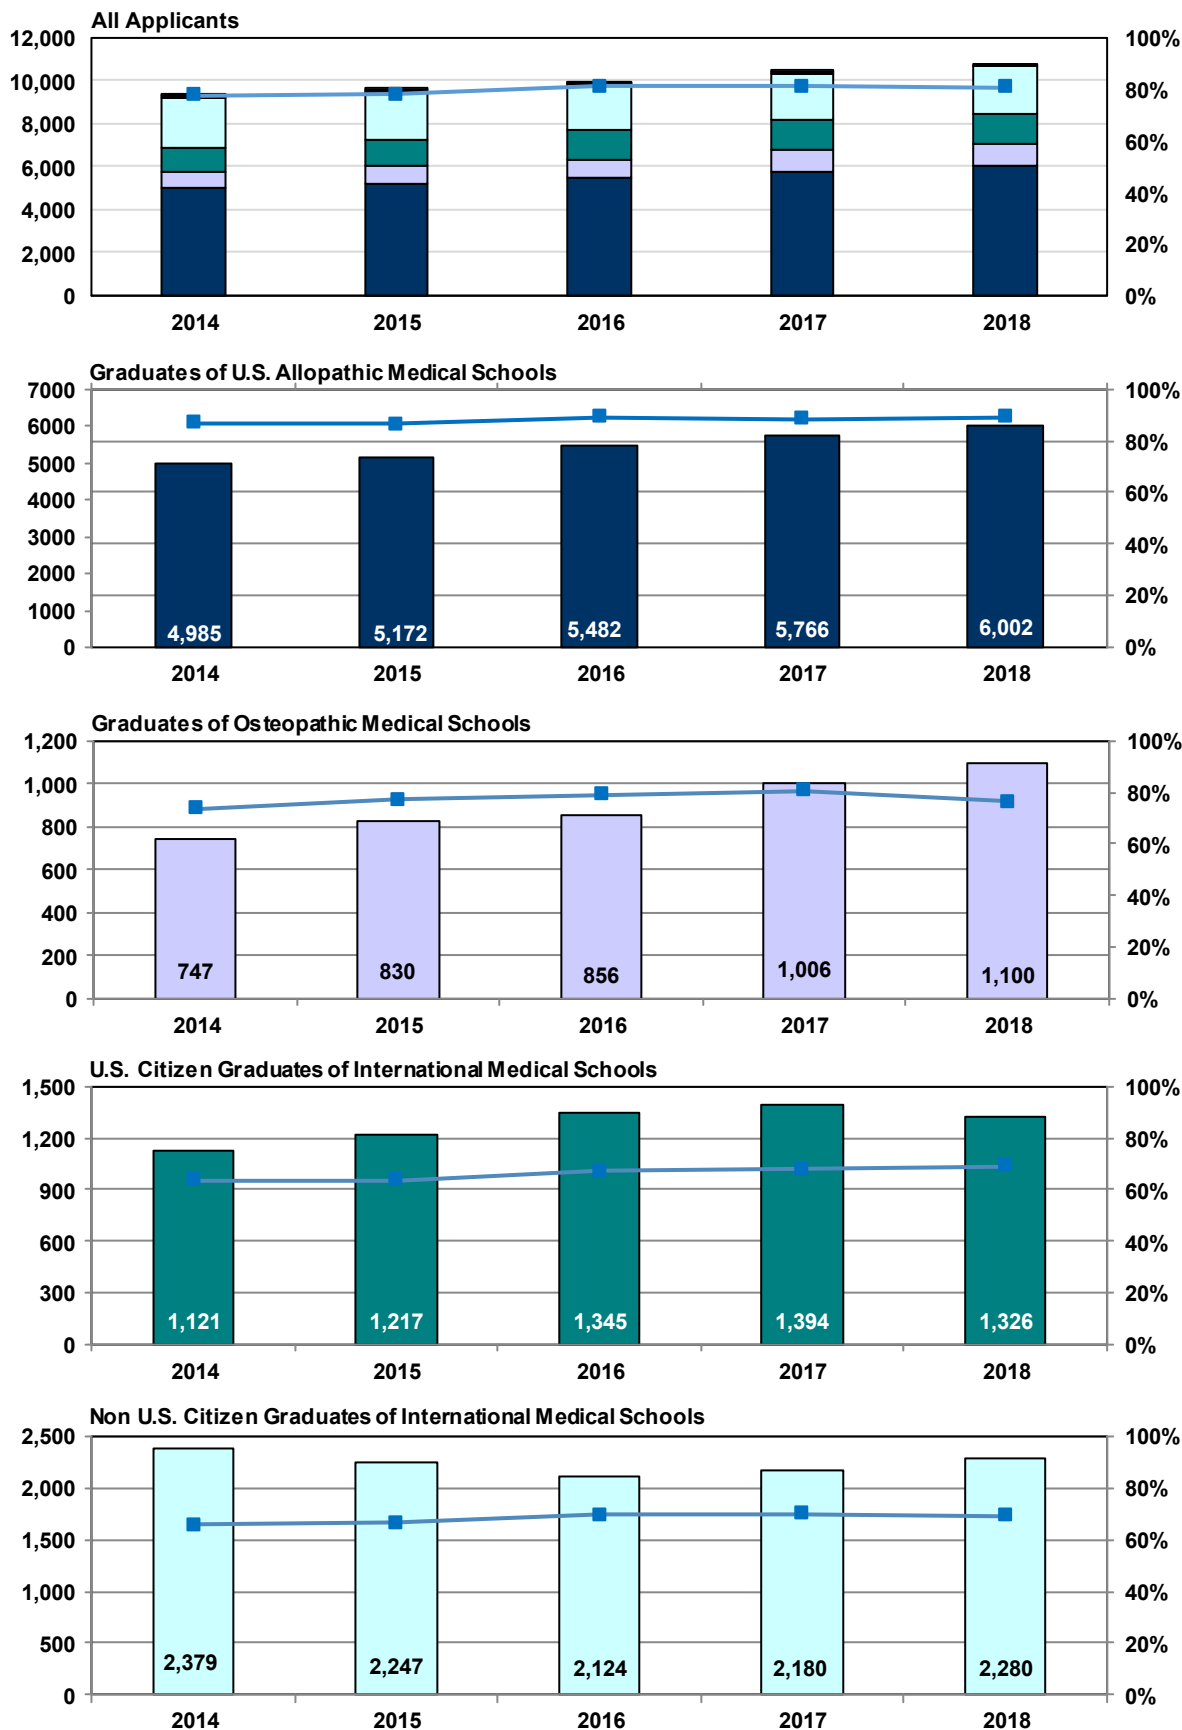

Table 5

Table 5 displays Fellowship Match results by specialty and applicants' preferred choices. Applicant preferred choice is determined by the placement of programs on an applicant's rank order list. *Preferred specialty* is the specialty ranked first on the applicant's rank order list.

For single-specialty Matches (top half of the table), the data presentation and interpretation are straightforward. For multi-specialty Matches (bottom half of table), they are more complicated.

Single-Specialty Matches

Using Medical Toxicology as an example, 35 of 40 applicants matched. Of the 35 matched applicants, 23 (57.5%) matched to the program that was listed first on their rank order list, 4 (10.0%) matched to their second choice, 3 (7.5%) to their third choice, and 5 (12.5%) to a choice lower than third. Five applicants in Medical Toxicology did not match, representing 12.5 percent of the total.

Multi-Specialty Matches

To count unique applicants for the multi-specialty Matches, each applicant is included in the counts for the specialty ranked first on the rank order list (preferred specialty). Because applicants can match to other specialties within the same Match, "Matched in Another Specialty" data also are provided.

For example, Cardiovascular Disease participated with 14 other specialties in the Medical Specialties Matching Program (MSMP). Of the 1,261 applicants who ranked Cardiovascular Disease, 1,256 ranked it first. Overall, 886 applicants matched to Cardiovascular Disease; of those who matched, 885 listed it as the preferred specialty.

Of the 1,261 applicants who ranked Cardiovascular Disease, 422 (33.5%) matched to the program that was listed first on the rank order list, 162 (12.8%) matched to the second choice, 103 (8.2%) to the third choice, 199 (15.8%) to a choice lower than third, and 13 (1.0%) matched to another specialty within the MSMP.

Of the 1,261 applicants who ranked Cardiovascular Disease, 362 (28.7%) failed to match.

Table 5

Fellowship Matches by Specialty and Applicant Choice, 2018 Appointments

* In most cases specialties are grouped by the ACGME Review Committees (RCs). Some specialties are under the auspices of multiple RCs and some specialties (or programs within a specialty) are not accredited by the ACGME. In those cases the fellowship programs are grouped under one specialty deemed appropriate. For 2018 appointments, the grouped specialties and their RCs are:

- Brain Injury Medicine: Neurology and Physical Medicine & Rehabilitation; also includes programs not accredited by the ACGME
- Female Pelvic Medicine and Reconstructive Surgery: Urology and OB/GYN
- Geriatric Medicine: Family Medicine and Internal Medicine
- Hand Surgery: Orthopaedic Surgery, Surgery, and Plastic Surgery
- Medical Toxicology: Emergency Medicine and Preventive Medicine
- Pediatric Emergency Medicine: Pediatrics and Emergency Medicine
- Pediatric Surgery: Surgery; also includes programs not accredited by the ACGME
- Sleep Medicine: Internal Medicine, Neurology, Pediatrics, and Psychiatry
- Sports Medicine: Family Medicine, Emergency Medicine and Physical Medicine & Rehabilitation
- Surgical Oncology: Surgery; also includes programs not accredited by the ACGME

** Not accredited by the ACGME

+ Applicants can rank multiple specialties within the combined specialties Matches. In addition, a small number of applicants participate in more than one Fellowship Match within a single appointment year.

Table 6

Table 6 displays data between 2014 and 2018 for the numbers of positions offered by specialty, as well as the percent filled by U.S. allopathic medical school graduates and by all applicants. To provide a complete picture, the table includes all specialties that participated during the five-year period regardless of when they joined and whether they remained in the SMS®. The data in Table 6 are calculated as a percentage of positions filled by applicant type, whereas the data in Table 2 are calculated as a percentage of matches by applicant type.

A graphical summary of the data for each specialty listed in Table 6 can be found on the following pages.

Table 6 Number of Positions Offered and Percent Filled by Graduates of U.S. Allopathic Medical Schools and All Applicants, 2014 - 2018

Specialties Matching Service®: Program Results for 2018 Appointments

This section of the report lists every hospital that participated in the SMS® along with the number of positions offered and filled for each of the institution's programs.

Hospitals are arranged alphabetically within state. The listing includes the hospital name (abbreviated in some instances); the program code, which identifies each program; the quota (the number of positions offered by the program); and the number of applicants matched with that program.

There are three reasons why a program that ranked an adequate number of applicants did not fill its quota: (1) the applicants preferred other programs; (2) the applicants did not rank the program; or (3) the applicants had withdrawn from the Match. There are also three reasons why applicants may not have matched with their most preferred program: (1) the program was filled with applicants it preferred; (2) the program did not rank the applicant; or (3) the program had withdrawn from the Match.

NRMP Program Code Structure

The NRMP program code is a **9-character** code based on the following criteria.

- The first four characters are the Institution Code.
- The fifth through the seventh characters represent specialty code obtained from the first three digits of the program's ACGME Code and designates the specialty (see below).
- The eighth character represents the program type: F - Fellowship program
- The ninth character represents the track:
 - 0 - first program/track in the specialty and program type at the institution
 - 1 - second program/track in the same specialty and program type at the same institution (i.e. 34th Street Clinic)
 - 2 - third program/track in the same specialty and program type at the same institution (i.e. Rural Clinic).

ACGME SPECIALTY CODES

S02	Abdominal Transplant Surgery**	540	Hospice and Palliative Medicine	327	Pediatric Hematology/Oncology
