| NRMP Specialties Matching Service: Program Results for 2014 Appointments..... | 83 |
|-------------------------------------------------------------------------------|----|

## About the Specialties Matching Service®

The National Resident Matching Program (NRMP) is a private, not-for-profit corporation established in 1952 to optimize the rank-ordered choices of applicants and program directors. The NRMP is not an application processing service; rather, it provides an impartial venue for matching applicants' and program directors' preferences for each other consistently.

The NRMP's Specialties Matching Service® (SMS®) conducts Matches for advanced residency and fellowship positions. The NRMP conducted its first fellowship Match in 1984 for Colon and Rectal Surgery, and in 2014 provided services for 55 subspecialties within 27 separate Matches. Three new Matches were added for the 2014 appointment year: Geriatric Medicine, Medical Toxicology, and Surgical Oncology. In addition, the original Pediatric Anesthesiology Match and Child and Adolescent Psychiatry Match were expanded with the inclusion of Pain Medicine and Psychosomatic Medicine respectively to become the Anesthesiology Match and Psychiatry Match. Minimally Invasive Gynecologic Surgery joined the Obstetrics and Gynecology Match, and Child Abuse joined the Pediatric Specialties Fall Match. Pediatric Nephrology moved from the Pediatric Specialties Spring Match to the Pediatric Specialties Fall Match.

A full list of the specialties participating in the SMS for the 2014 appointment year can be found in Figure 1.

The specialty Matches occur throughout the year, and each requires its own registration process with the NRMP. Fellowship positions generally begin in July. Because fellowship Matches have appointments that start anywhere from 6 to 17 months after their Match Days, data are reported for the appointment year instead of the Match Year.

For more information about the NRMP's Specialties Matching Service, please visit: <http://www.nrmp.org>.

Data and reports for the NRMP's Main Residency Match® can be found at: [www.nrmp.org/match-data](http://www.nrmp.org/match-data). Instructions on how to request additional data also are provided.

**Figure 1** Fellowship Match Calendar for 2014 Appointment Year

| Match/Specialty                                             | Match Year | Appointment Year | Match Opens | Match Day  |
|-------------------------------------------------------------|------------|------------------|-------------|------------|
| <b>Abdominal Transplant Surgery</b>                         | 2013       | 2014             | 01/09/2013  | 06/19/2013 |

\*\* Non ACGME accredited

\*\*\* American Board of Obstetrics and Gynecology (ABOG) accredited

## Introduction

This report summarizes all fellowship Matches conducted by the NRMP's Specialties Matching Service® (SMS®). Data are provided for Matches conducted in 2013 and early 2014 for appointments beginning in July 2014. Graphs display five-year trend data by specialty on numbers of programs, positions, and applicants as well as match rates. Numbers of positions offered and filled for each participating program are listed at the end of this report.

The 2014 report includes seven new specialties: Child Abuse, Geriatric Medicine, Medical Toxicology, Minimally Invasive Gynecologic Surgery, Pain Medicine, Psychosomatic Medicine, and Surgical Oncology.

The 2014 appointment year was the largest in the history of the SMS. The Matches encompassed:

- 3,552 programs within 55 specialties offering 8,243 fellowship positions
- Of those positions, 7,246 (87.9%) were filled

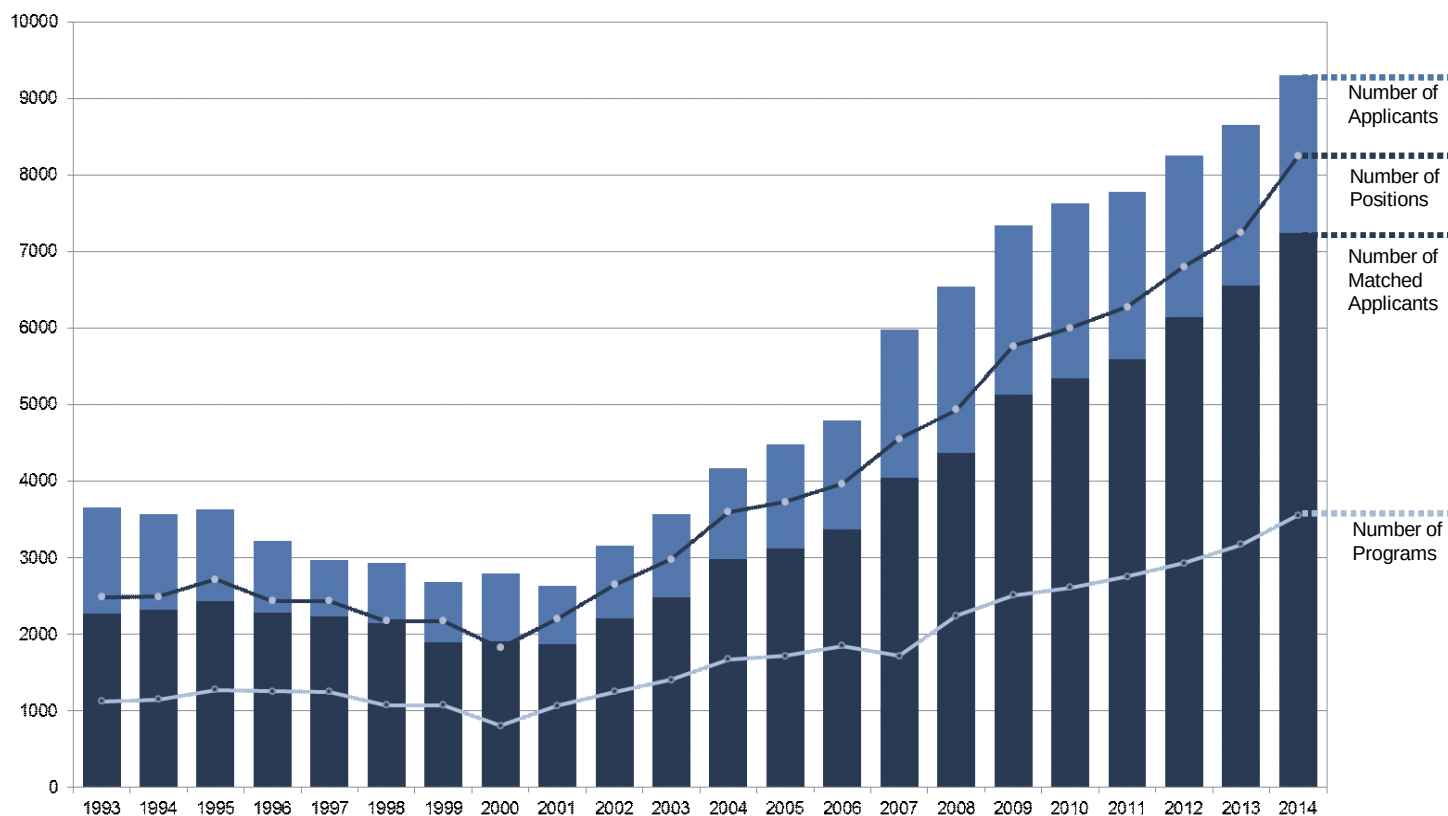

- Of the 3,552 participating programs, 2,824 (79.5%) filled all positions
- 9,297 applicants participated in at least one of the fellowship Matches and 7,246 (77.9%) obtained a position

Numbers of applicants, matched applicants, positions, and programs offering positions between 1993 and 2014 are shown in Figure 2 below.

Questions about the NRMP's Specialties Matching Service should be directed in writing to:

## Table 1

Table 1 provides a summary of the SMS® fellowship Matches for appointment year 2014.

Using Allergy and Immunology as an example:

- The first two columns (“No. of Applicants”) show that 125 U.S. allopathic medical school graduates and 179 total applicants ranked at least one Allergy and Immunology program.
- The next two columns (“Positions Offered” and “No. of Programs”) show that a total of 132 positions were offered in this specialty by 81 programs.
- The “No. of Matches” columns show that, of the 132 positions offered in Allergy and Immunology, 94 were filled by U.S. allopathic graduates, and 123 were filled overall.
- The percent of positions filled (calculated as “No. of Matches” divided by “Positions Offered”) can be found in the “% Filled” columns. Of the fellowship positions offered in Allergy and Immunology, 71.2 percent were filled by U.S. allopathic graduates and 93.2 percent were filled overall.
- The “Ranked Positions” columns show that the 81 Allergy and Immunology programs were ranked 762 times by U.S. allopathic graduates and 1,017 times by all applicants (including U.S. allopathic graduates).
- The last column (“Unfilled Programs”) indicates that 9 Allergy and Immunology programs had at least 1 unfilled position after the matching algorithm had been processed.

Of the 55 participating specialties, 31 filled more than 90 percent of the positions offered and 16 filled less than 75 percent of the positions offered. Nine specialties filled 75 percent or more of the positions offered with graduates of U.S. allopathic medical schools, and 24 specialties filled 50 percent or less of their positions with U.S. allopathic graduates.

**Table 1 Fellowship Match Summary, 2014 Appointments**

| Specialty                                          | No. of Applicants+ |          | Positions Offered | No. of Pgms | No. of Matches |          | % Filled   |          | Ranked Positions |          | Unfilled Pgms |
|----------------------------------------------------|--------------------|----------|-------------------|-------------|----------------|----------|------------|----------|------------------|----------|---------------|
|                                                    | U.S. Grads++       | All Apps |                   |             | U.S. Grads     | All Apps | U.S. Grads | All Apps | U.S. Grads       | All Apps |               |

\* In most cases specialties are grouped by ACGME Review Committees (RCs). Some specialties are under the auspices of multiple RCs and some specialties (or programs within a specialty) are not accredited by the ACGME. In those cases the fellowship programs are grouped under one specialty deemed appropriate. The grouped specialties and their RCs are:

- Female Pelvic Medicine and Reconstructive Surgery: Urology, OB/GYN, and non-ACGME accredited
- Geriatric Medicine: Family Medicine and Internal Medicine
- Hand Surgery: Osteopathic Surgery, Surgery, and Plastic Surgery
- Medical Toxicology: Emergency Medicine and Preventive Medicine
- Pediatric Emergency Medicine: Pediatrics and Emergency Medicine
- Pediatric Surgery: Surgery and non-ACGME accredited
- Sports Medicine: Family Medicine, Emergency Medicine and PM&R
- Surgical Oncology: Surgery and non-ACGME accredited

\*\* Non-ACGME accredited

\*\*\* American Board of Obstetrics and Gynecology (ABOG) accredited

+ Applicants can rank multiple specialties within the combined specialties Matches. In addition, a small number of applicants participate in more than one fellowship Match within a single appointment year.

++ Graduates of U.S. allopathic medical schools

## Table 2

Table 2 shows the number and percent of matches in each specialty by applicant type. Of the specialties offering at least 30 positions:

- Gynecologic Oncology had the highest proportion filled with *U.S. allopathic graduates* (98.1%) and Nephrology had the lowest (29.4%). The specialties that filled 80 percent or more of their positions with graduates of U.S. allopathic medical schools are Gynecologic Oncology (98.1%), Pediatric Surgery (92.1%), Hand Surgery (87.7%), Interventional Radiology (86.3%), Maternal-Fetal Medicine (84.0%), Reproductive Endocrinology (81.4%), Colon and Rectal Surgery (80.4%), and Medical Toxicology (80.0%).
- The top five specialties in the percentage of positions filled by *osteopathic graduates* are Primary Care Sports Medicine (26.4%), Surgical Critical Care (15.1%), Medical Toxicology (15.0%), Adolescent Medicine (14.3%), and Child and Adolescent Psychiatry (13.9%).
- The top five specialties in the percentage of positions filled by *U.S. international medical graduates* are Medical Genetics (21.7%), Geriatric Medicine (21.6%), Sleep Medicine (19.6%), Nephrology (19.3%), and Primary Care Sports Medicine (16.2%).
- The top five specialties in the percentage of positions filled by *Non-U.S. international medical graduates* are Abdominal Transplant Surgery (55.8%), Nephrology (43.8%), Rheumatology (40.2%), Sleep Medicine (40.2%), and Endocrinology, Diabetes, and Metabolism (39.9%).

**Table 2 Fellowship Matches by Specialty and Applicant Type, 2014 Appointments**

| Specialty                                          | Number of Positions | Number Filled | Applicant Type            |       |                       |      |                    |      |                       |      |                              |      |                                  |      |

\* In most cases specialties are grouped by ACGME Review Committees (RCs). Some specialties are under the auspices of multiple RCs and some specialties (or programs within a specialty) are not accredited by the ACGME. In those cases the fellowship programs are grouped under one specialty deemed appropriate. The grouped specialties and their RCs are:

- Female Pelvic Medicine and Reconstructive Surgery: Urology, OB/GYN, and non-ACGME accredited
- Geriatric Medicine: Family Medicine and Internal Medicine
- Hand Surgery: Osteopathic Surgery, Surgery, and Plastic Surgery
- Medical Toxicology: Emergency Medicine and Preventive Medicine
- Pediatric Emergency Medicine: Pediatrics and Emergency Medicine
- Pediatric Surgery: Surgery and non-ACGME accredited
- Sports Medicine: Family Medicine, Emergency Medicine and PM&R
- Surgical Oncology: Surgery and non-ACGME accredited

\*\* Non-ACGME accredited

\*\*\* American Board of Obstetrics and Gynecology (ABOG) accredited

---

### Table 3

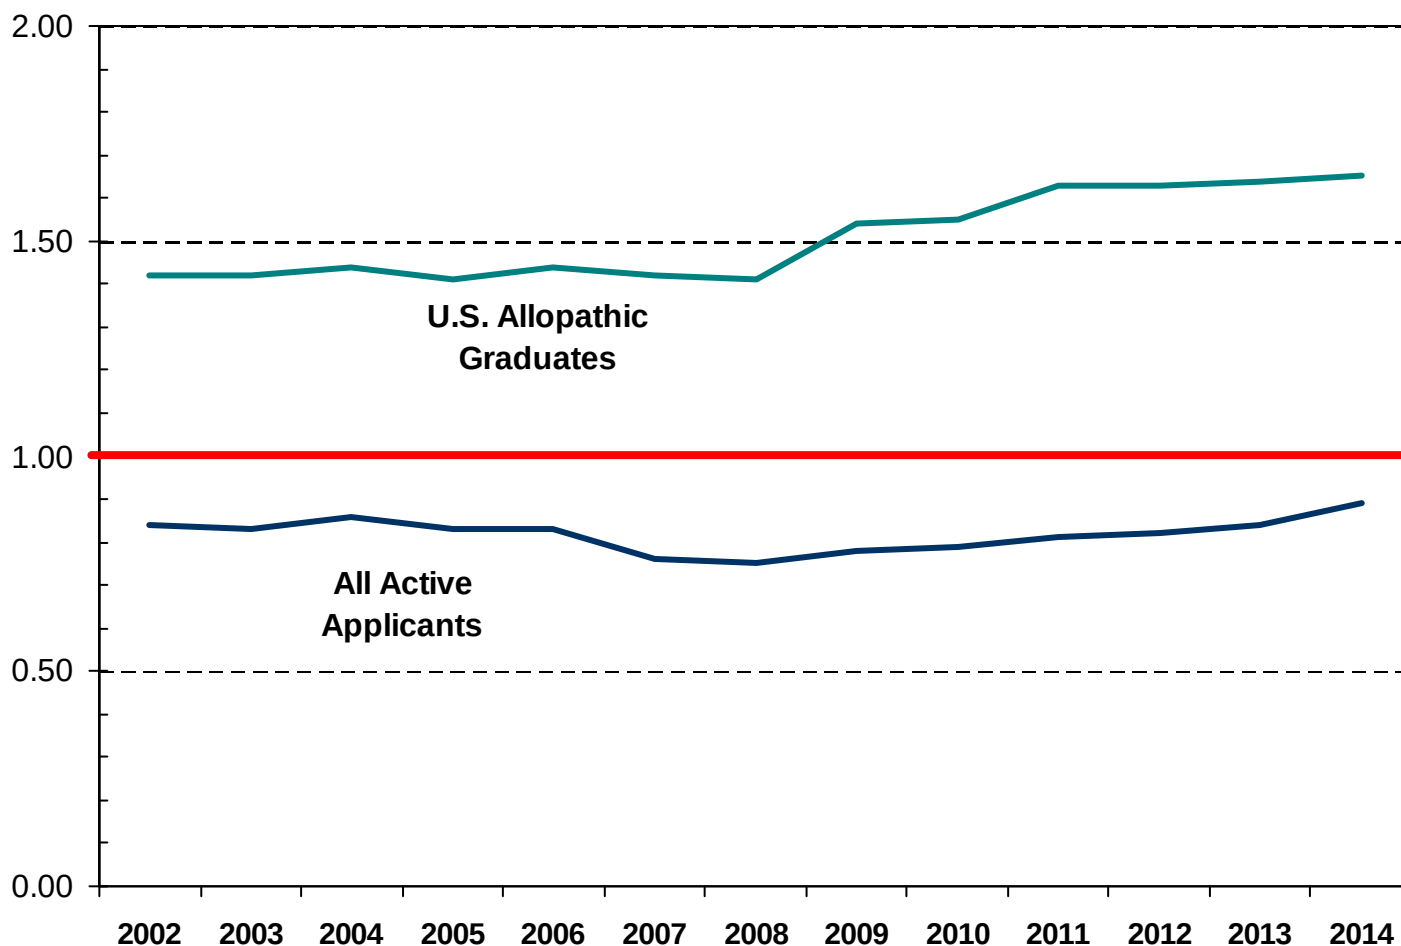

The ratios of fellowship positions to active applicants are provided in Table 3 for years 2010 through 2014 and shown graphically in Figure 3 for years between 2002 and 2014. Active applicants are defined as those who submitted certified rank order lists of programs. The red line in Figure 3 indicates the point at which there are equal numbers of positions and applicants.

- The number of fellowship positions per *active U.S. allopathic graduate* assumed an upward trend starting in 2009, reaching 1.65 positions per active U.S. allopathic graduate in 2014. Across all five years, there were more fellowship positions offered than there were U.S. allopathic graduate applicants.
- The ratio of fellowship positions to *all active applicants* also experienced a slight but steady increase between 2010 and 2014, up from 0.79 positions per applicant to 0.89 positions per applicant.

**Table 3** Number of Positions per Active Applicant, 2010-2014

| Year | Number of Positions | Active Applicants         |       | Positions Per Active Applicant |      |
|------|---------------------|---------------------------|-------|--------------------------------|------|
|      |                     | U.S. Allopathic Graduates | All   | U.S. Allopathic Graduates      | All  |
| 2010 | 6,002               | 3,867                     | 7,627 | 1.55                           | 0.79 |
| 2011 | 6,276               | 3,848                     | 7,774 | 1.63                           | 0.81 |
| 2012 | 6,799               | 4,169                     | 8,249 | 1.63                           | 0.82 |
| 2013 | 7,245               | 4,423                     | 8,653 | 1.64                           | 0.84 |
| 2014 | 8,243               | 4,985                     | 9,297 | 1.65                           | 0.89 |

**Note:** Applicants who withdrew or did not rank programs are excluded.

---

## Table 4

Table 4 provides a summary of the applicants in the SMS® fellowship Matches between 2010 and 2014 by applicant type.

Applicants are grouped based on citizenship and medical school of graduation. For example, *U.S. allopathic graduates* are prior graduates of U.S. allopathic medical schools regardless of citizenship. *U.S. international medical graduates* are defined as U.S. citizens who are graduates of international medical schools, and *non-U.S. international medical graduates* are non-U.S. citizen graduates of international medical schools.

The total number of registrants for the 2014 appointment year was 9,920, an increase of 733 or 8.0 percent over 2013. The number of graduates of U.S. allopathic medical schools increased 11.3 percent in 2014 to 5,185 compared to 2013. The number of non-U.S. citizen graduates of international medical schools declined for the second year in a row, and is down more than 200 applicants since 2012. With the exception of non-U.S. citizen graduates of international medical schools and graduates of graduates from Fifth Pathway programs, registration numbers of all applicant types increased from 2013 to 2014.

An *active applicant* is one who submits a certified rank order list of programs. Between 2010 and 2014, the number of active applicants rose for graduates of U.S. allopathic medical schools, U.S. citizen graduates of international medical schools, and most notably for graduates of osteopathic medical schools (74.9% increase). Active applicant groups that increased faster than the overall rate of 21.9 percent between 2010 and 2014 are identified in Table 4 with green arrows.

The trends in the numbers of active applicants and their match rates can be seen graphically in Figure 4.

**Table 4 Fellowship Applicants by Applicant Type and Appointment Year, 2010 - 2014**

▲ Denotes that the percentage increase in active applicants for this group was greater than the overall increase of 21.9% for all active applicants between 2010 and 2014.

# Figure 4

## Number of Active Applicants and Percent Matched, 2010-2014

## Table 5

Table 5 displays fellowship Match results by specialty and applicant preferred choice. Applicant choice is determined by the placement of programs on applicants' rank order lists. *Preferred specialty* is defined as the specialty ranked first on the applicant's rank order list.

For single specialty Matches (top half of table), the data presentation and interpretation are straightforward. For multiple specialty Matches (bottom half of table) they are slightly more complicated.

### Single Specialty Matches

Using Allergy and Immunology as an example, 123 of 179 applicants matched. Of the 179 applicants, 41.9 percent matched to the program that was listed first on their rank order list, 12.3 percent matched to their second choice, 5.6 percent to their third choice, and 8.9 percent to a choice lower on their list. Fifty-six applicants in the Allergy and Immunology Fellowship Match did not match, representing 31.3 percent of the total.

### Combined Specialties Matches

To count unique applicants for the combined specialty Matches, each applicant is included in the counts for the specialty ranked first on the rank order list (preferred specialty). Because applicants can match to other specialties within the same Match, "Matched in Another Specialty" data also are provided.

For example, Endocrinology, Diabetes, and Metabolism participated with 11 other specialties in the Medical Specialties Matching Program (MSMP). Of the 306 applicants who ranked Endocrinology, Diabetes, and Metabolism, 295 ranked it first. Overall, 238 applicants matched to Endocrinology, Diabetes, and Metabolism; of those who matched, 236 listed it as the preferred specialty.

Of the 306 applicants who ranked Endocrinology, Diabetes, and Metabolism, 47.1 percent matched to the program that was listed first on the rank order list, 16.0 percent matched to the second choice, 4.9 percent to the third choice, 9.8 percent to a choice lower on their list, and 3.9 percent matched to another specialty within the MSMP.

Of the 306 applicants who ranked Endocrinology, Diabetes, and Metabolism, 56 (18.3%) failed to match.

Table 5

Fellowship Matches by Specialty and Applicant Choice, 2014 Appointments

| Specialty                                          | Number of Applicants |                     | Number Matched      |                     | Matches by Rank Choice |       |            |       |            |      |                         |      | Matched in Another Specialty |      | Unmatched |       |

\* In most cases specialties are grouped by ACGME Review Committees (RCs). Some specialties are under the auspices of multiple RCs and some specialties (or programs within a specialty) are not accredited by the ACGME. In those cases the fellowship programs are grouped under one specialty deemed appropriate. The grouped specialties and their RCs are:

- Female Pelvic Medicine and Reconstructive Surgery: Urology, OB/GYN, and non-ACGME accredited
- Geriatric Medicine: Family Medicine and Internal Medicine
- Hand Surgery: Osteopathic Surgery, Surgery, and Plastic Surgery
- Medical Toxicology: Emergency Medicine and Preventive Medicine
- Pediatric Emergency Medicine: Pediatrics and Emergency Medicine
- Pediatric Surgery: Surgery and non-ACGME accredited
- Sports Medicine: Family Medicine, Emergency Medicine and PM&R
- Surgical Oncology: Surgery and non-ACGME accredited

\*\* Non-ACGME accredited

\*\*\* American Board of Obstetrics and Gynecology (ABOG) accredited

+ Applicants can rank multiple specialties within the combined specialties Matches.

## Table 6

Table 6 displays trends between 2010 and 2014 in the numbers of positions offered by specialty, as well as the percent filled by U.S. allopathic medical school graduates and by all applicants. To provide a complete picture, the table includes all specialties that participated during the five-year period regardless of when they joined and whether they remained in the SMS®. The data in Table 6 are calculated as a percentage of positions filled by applicant type, whereas the data in Table 2 are calculated as a percentage of matches by applicant type.

A graphical summary of the five-year trends for each specialty listed in Table 6 can be found on the following pages.

**Table 6** Number of Positions Offered and Percent Filled by Graduates of U.S. Allopathic Medical Schools and All Applicants, 2010 - 2014

| Specialty                                          | 2014        |          |       | 2013        |          |       | 2012        |          |       | 2011        |          |       | 2010        |          |       |
|----------------------------------------------------|-------------|----------|-------|-------------|----------|-------|-------------|----------|-------|-------------|----------|-------|-------------|----------|-------|
|                                                    | No. of Pos. | % Filled |       | No. of Pos. | % Filled |       | No. of Pos. | % Filled |       | No. of Pos. | % Filled |       | No. of Pos. | % Filled |       |
|                                                    |             | U.S.     | Tot   |             | U.S.     | Tot   |             | U.S.     | Tot   |             | U.S.     | Tot   |             | U.S.     | Tot   |

\* In most cases specialties are grouped by ACGME Review Committees (RCs). Some specialties are under the auspices of multiple RCs and some specialties (or programs within a specialty) are not accredited by the ACGME. In those cases the fellowship programs are grouped under one specialty deemed appropriate. The grouped specialties and their RCs are:

- Female Pelvic Medicine and Reconstructive Surgery: Urology, OB/GYN, and non-ACGME accredited
- Geriatric Medicine: Family Medicine and Internal Medicine
- Hand Surgery: Osteopathic Surgery, Surgery, and Plastic Surgery
- Medical Toxicology: Emergency Medicine and Preventive Medicine
- Pediatric Emergency Medicine: Pediatrics and Emergency Medicine
- Pediatric Surgery: Surgery and non-ACGME accredited
- Sports Medicine: Family Medicine, Emergency Medicine and PM&R
- Surgical Oncology: Surgery and non-ACGME accredited

\*\* Non-ACGME accredited

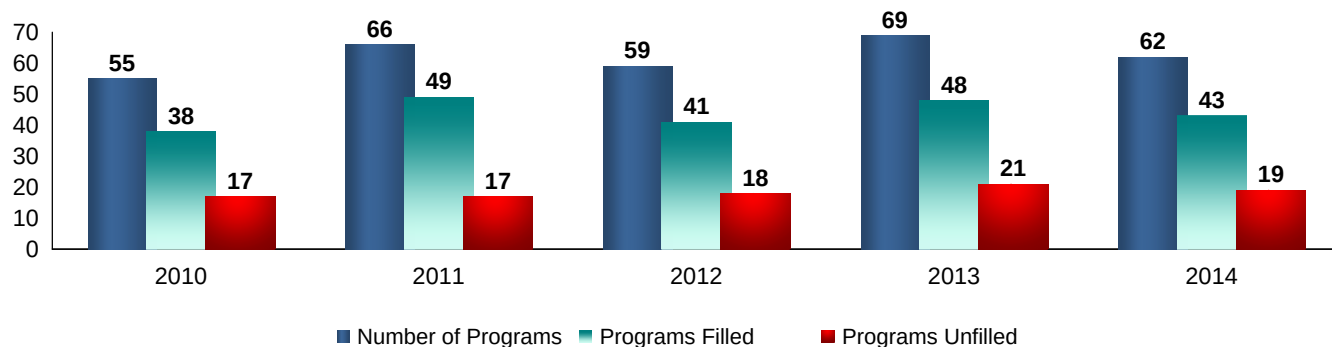

\*\*\* American Board of Obstetrics and Gynecology (ABOG) accredited

# Specialties Matching Service®: Program Results for 2014 Appointments

This section of the report lists every hospital that participated in the SMS® along with the number of positions offered and filled for each of the institution's programs.

Hospitals are arranged alphabetically within state. The listing includes the hospital name (abbreviated in some instances); the program code, which identifies each program; the quota (the number of positions offered by the program); and the number of applicants matched with that program.

There are three reasons why a program that ranked an adequate number of applicants did not fill its quota: (1) the applicants preferred other programs; (2) the applicants did not rank the program; or (3) the applicants had withdrawn from the Match. There are also three reasons why applicants may not have matched with their most preferred program: (1) the program was filled with applicants it preferred; (2) the program did not rank the applicant; or (3) the program had withdrawn from the Match.

## NRMP Program Code Structure

The NRMP program code is a **9-character** code based on the following criteria.

- The first four characters are the Institution Code.
- The fifth through the seventh characters represent specialty code obtained from the first three digits of the program's ACGME Code and designates the specialty (see below).
- The eighth character represents the program type: F - Fellowship program
- The ninth character represents the track:
  - 0 - first program/track in the specialty and program type at the institution
  - 1 - second program/track in the same specialty and program type at the same institution (i.e. 34th Street Clinic)
  - 2 - third program/track in the same specialty and program type at the same institution (i.e. Rural Clinic).

## ACGME SPECIALTY CODES

|     |                                                             |     |                                                             |     |                                              |
