NATIONAL RESIDENT MATCHING PROGRAM

2121 K Street, NW
Suite 1000
Washington, DC 20037

The NRMP is governed by a 19-member Board of Directors, including:

- Chair, Chair-Elect, and Secretary/Treasurer
- Two graduate medical education program directors
- Three medical students
- Three resident physicians, one of whom is an international medical graduate
- One public member

Officers

- **Chair:** Hal B. Jenson, M.D., M.B.A., Founding Dean, Western Michigan University School of Medicine
- **Chair Elect:** Maria C. Savoia, M.D., Dean for Medical Education, University of California San Diego
- **Secretary/Treasurer:** Glenn A. Fosdick, F.A.C.H.E., Former President/Chief Executive Officer, The Nebraska Medical Center
- **President and Chief Executive Officer:** Mona M. Signer, M.P.H., National Resident Matching Program

Board Members, 2014-2015

- Sameer Ather, M.D., Cardiovascular Disease Fellow, University of Alabama at Birmingham
- C. Bruce Alexander, M.D., F.A.S.C.P., Professor and Vice Chair, Department of Pathology, University of Alabama at Birmingham
- Maya A. Babu, M.D., Neurological Surgery Resident, Mayo Clinic
- Carol D. Berkowitz, M.D., F.A.A.P., F.A.C.E.P., Executive Vice Chair, Department of Pediatrics, UCLA-Harbor Medical Center; Distinguished Professor of Pediatrics, David Geffen School of Medicine at University of California at Los Angeles
- Pavan K. Cheruvu, M.D., Cardiovascular Disease Fellow, University of California at San Francisco
- Rita K. Cydulka, M.D., M.S., F.A.C.E.P., Former Professor and Vice Chair, Department of Emergency Medicine, MetroHealth Medical Center; Associate Professor, Department of Biostatistics and Epidemiology Case Western University School of Medicine
- Francis Deng, M.D. candidate, Washington University School of Medicine
- John DePaolo, M.D./Ph.D. candidate, Louisiana State University School of Medicine
- Michael H. Duyzend, M.D./Ph.D. candidate, University of Washington School of Medicine
- Jane L. Eisen, M.D., Associate Professor and Vice Chair for Academic Affairs, Department of Psychiatry and Human Behavior, Brown University
- Susan Guralnick, M.D., Director of Graduate Medical Education, Winthrop University Hospital
- Marc J. Kahn, M.D., M.B.A., F.A.C.P., Senior Associate Dean for Admissions and Student Affairs, Tulane University School of Medicine
- Mahendr Kochar, M.D., M.S., M.B.A., J.D., Associate Dean of Graduate Medical Education, University of California at Riverside
- Daniel S. Morrissey, O.P., Public Member
- Steven J. Scheinman, M.D., President and Dean, The Commonwealth Medical College
- Kenneth B. Simons, M.D., Associate Dean for Graduate Medical Education and Accreditation, Medical College of Wisconsin

Glossary

ACGME	Accreditation Council for Graduate Medical Education (ACGME)
Active Applicant	An active applicant is one who submits a certified rank order list of programs.
Applicant Type	The NRMP classifies SMS® applicants into 6 types: • Graduates of U.S. allopathic medical schools: a graduate of a U.S. allopathic school of medicine accredited by the Liaison Committee on Medical Education (LCME). Also referred to as U.S. allopathic graduates. • Graduates of Canadian medical schools: a graduate of a Canadian school of medicine accredited by the Committee on Accreditation of Canadian Medical Schools (CACMS). Also referred to as Canadian graduates. • Graduates of osteopathic medical schools: a graduate of a medical school accredited by the Association of n American Colleges of Osteopathic Medicine (AACOM). Also referred to as osteopathic graduates. • Graduates of Fifth Pathway programs. Also referred to as Fifth Pathway graduates. • U.S. citizen graduates of international medical schools. Also referred to as U.S. international graduates. • Non-U.S. citizen graduates of international medical schools. Also referred to as non-U.S. international graduates.

About the Specialties Matching Service®

The National Resident Matching Program (NRMP) is a private, not-for-profit corporation established in 1952 to optimize the rank-ordered choices of applicants and program directors. The NRMP is not an application processing service; rather, it provides an impartial venue for matching applicants' and program directors' preferences for each other consistently.

The NRMP Specialties Matching Service® (SMS®) conducts Matches for advanced residency and fellowship positions. The NRMP conducted its first Fellowship Match in 1984 for Colon and Rectal Surgery, and in 2015 provided services for 56 subspecialties within 25 separate Matches. For the 2015 appointment year, the Pediatric Matches experienced addition and regrouping: the Pediatric Specialties Fall Match was expanded with the addition of Pediatric Hospital Medicine, Neonatal Perinatal Medicine (originally a single-specialty Match), and Pediatric Infectious Diseases (originally in the Pediatric Specialties Spring Match). Also, the Pediatric Hematology/Oncology Match joined the Pediatric Specialties Spring Match.

A complete list of the subspecialties participating in the SMS for the 2015 appointment year can be found in Figure 1.

The Fellowship Matches occur throughout the year, and each requires its own registration process with the NRMP. Fellowship positions generally begin in July. Because Fellowship Match appointments may begin anywhere from 6 to 17 months after their Match Days, data are reported for the appointment year instead of the Match Year.

For more information about the NRMP's Specialties Matching Service, please visit: <http://www.nrmp.org>.

Data and reports for the NRMP's Main Residency Match® can be found at: www.nrmp.org/match-data. Instructions on how to request additional data also are provided.

Introduction

This report summarizes all Fellowship Matches conducted by the NRMP Specialties Matching Service® (SMS®). Data are provided for Matches conducted in 2014 and early 2015 for appointments beginning in July 2015. Graphs display five-year trend data by specialty on numbers of programs, positions, and applicants as well as match rates. Numbers of positions offered and filled for each participating program are listed at the end of this report.

The 2015 report includes one new specialty: Pediatric Hospital Medicine.

The 2015 appointment year was the largest in the history of the SMS. The Matches encompassed:

- 3,674 programs within 56 subspecialties offering 8,503 fellowship positions
- Of those positions, 7,469 (87.8%) were filled

- Of the 3,674 participating programs, 2,938 (80.0%) filled all positions
- 9,538 applicants participated in at least one of the Fellowship Matches and 7,469 (78.3%) obtained a position

Numbers of applicants, matched applicants, positions, and programs offering positions between 1993 and 2015 are shown in Figure 2 below.

Questions about the Specialties Matching Service should be directed in writing to:

Mona M. Signer, President and CEO

Figure 2

Numbers of Applicants and Programs Participating in the Specialties Matching Service® (SMS®) by Appointment Year, 1993-2015

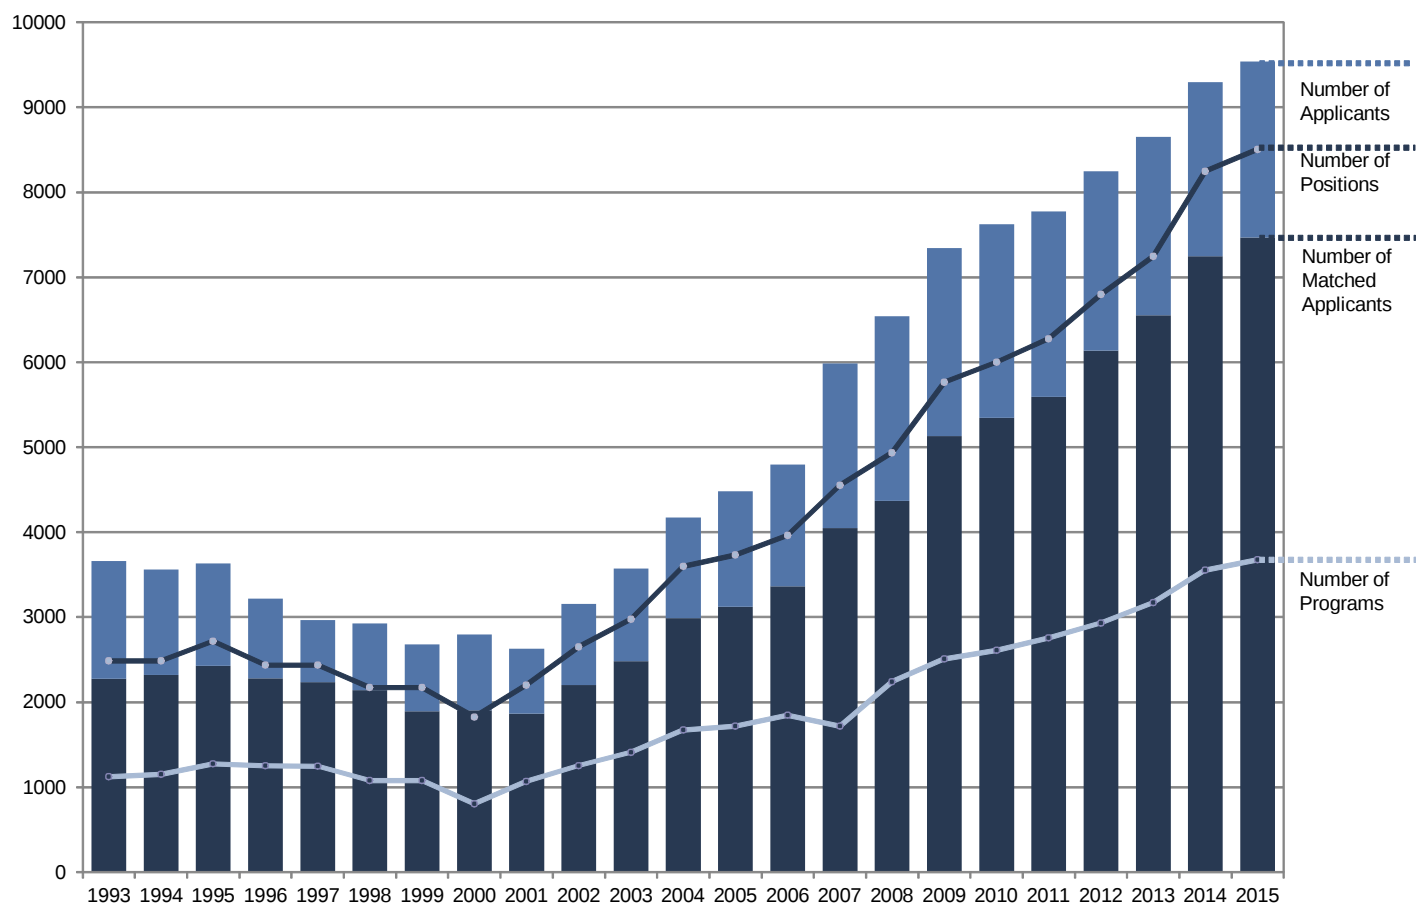

Table 1

Table 1 provides a summary of the SMS® Fellowship Matches for appointment year 2015.

Using Allergy and Immunology as an example:

- The first two columns (“No. of Applicants”) show that 105 U.S. allopathic medical school graduates and 155 total applicants ranked at least one Allergy and Immunology program.
- The next two columns (“Positions Offered” and “No. of Programs”) show that a total of 126 positions were offered in this specialty by 82 programs.
- The “No. of Matches” columns show that, of the 126 positions offered in Allergy and Immunology, 90 were filled by U.S. allopathic graduates, and 117 were filled overall.
- The percent of positions filled (calculated as “No. of Matches” divided by “Positions Offered”) can be found in the “% Filled” columns. Of the fellowship positions offered in Allergy and Immunology, 71.4 percent were filled by U.S. allopathic graduates and 92.9 percent were filled overall.
- The “Ranked Positions” columns show that the 82 Allergy and Immunology programs were ranked 731 times by U.S. allopathic graduates and 1,071 times by all applicants (including U.S. allopathic graduates).
- The last column (“Unfilled Programs”) indicates that 8 Allergy and Immunology programs had at least 1 unfilled position after the matching algorithm had been processed.

Of the 56 participating subspecialties, 35 filled more than 90 percent of the positions offered and 16 filled less than 75 percent of the positions offered. Eight specialties filled 75 percent or more of their positions with graduates of U.S. allopathic medical schools, and 23 specialties filled 50 percent or less of their positions with U.S. allopathic graduates.

* In most cases specialties are grouped by the ACGME Review Committees (RCs). Some specialties are under the auspices of multiple RCs and some specialties (or programs within a specialty) are not accredited by the ACGME. In those cases the fellowship programs are grouped under one specialty deemed appropriate. The grouped specialties and their RCs are:

- Female Pelvic Medicine and Reconstructive Surgery: Urology and OB/GYN. Also includes programs that are not accredited by the ACGME
- Geriatric Medicine: Family Medicine and Internal Medicine
- Hand Surgery: Osteopathic Surgery, Surgery, and Plastic Surgery
- Medical Toxicology: Emergency Medicine and Preventive Medicine
- Pediatric Emergency Medicine: Pediatrics and Emergency Medicine
- Pediatric Surgery: Surgery. Also includes programs that are not accredited by the ACGME
- Sports Medicine: Family Medicine, Emergency Medicine and Physical Medicine & Rehabilitation
- Surgical Oncology: Surgery. Also includes programs that are not accredited by the ACGME

** Not accredited by the ACGME

*** Accredited by the American Board of Obstetrics and Gynecology (ABOG)

+ Applicants can rank multiple specialties within the combined specialties Matches. In addition, a small number of applicants participate in more than one Fellowship Match within a single appointment year.

++ Graduates of U.S. allopathic medical schools

Table 2

Table 2 shows the number and percent of matches in each specialty by applicant type. Of the specialties offering at least 30 positions:

- Gynecologic Oncology had the highest proportion filled by *U.S. allopathic medical school graduates* (92.2%) and Nephrology had the lowest (31.1%). The top five specialties in the percentage of positions filled by graduates of U.S. allopathic medical schools are Gynecologic Oncology (92.2%), Pediatric Surgery (89.6%), Hand Surgery (89.3%), Interventional Radiology (85.2%), and Neuroradiology (84.3%).
- The top five specialties in the percentage of positions filled by *osteopathic medical school graduates* are Primary Care Sports Medicine (31.2%), Developmental and Behavioral Pediatrics (20.0%), Child and Adolescent Psychiatry (17.0%), Pediatric Hematology/Oncology (16.3%), and Pain Medicine (14.3%).
- The top five specialties in the percentage of positions filled by *U.S. international medical graduates* are Sleep Medicine (20.2%), Developmental and Behavioral Pediatrics (20.0%), Child and Adolescent Psychiatry (18.3%), Primary Care Sports Medicine (17.6%), and Nephrology (17.3%).
- The top five specialties in the percentage of positions filled by *Non-U.S. international medical graduates* are Abdominal Transplant Surgery (45.6%), Nephrology (42.1%), Endocrinology, Diabetes, and Metabolism (39.7%), Rheumatology (37.4%), and Pediatric Nephrology (33.3%).

* In most cases specialties are grouped by the ACGME Review Committees (RCs). Some specialties are under the auspices of multiple RCs and some specialties (or programs within a specialty) are not accredited by the ACGME. In those cases the fellowship programs are grouped under one specialty deemed appropriate. The grouped specialties and their RCs are:

- Female Pelvic Medicine and Reconstructive Surgery: Urology and OB/GYN. Also includes programs that are not accredited by the ACGME
- Geriatric Medicine: Family Medicine and Internal Medicine
- Hand Surgery: Osteopathic Surgery, Surgery, and Plastic Surgery
- Medical Toxicology: Emergency Medicine and Preventive Medicine
- Pediatric Emergency Medicine: Pediatrics and Emergency Medicine
- Pediatric Surgery: Surgery. Also includes programs that are not accredited by the ACGME
- Sports Medicine: Family Medicine, Emergency Medicine and Physical Medicine & Rehabilitation
- Surgical Oncology: Surgery. Also includes programs that are not accredited by the ACGME

** Not accredited by the ACGME

*** Accredited by the American Board of Obstetrics and Gynecology (ABOG)

Table 3

The ratios of fellowship positions to active applicants are provided in Table 3 for years 2011 through 2015 and shown graphically in Figure 3 for years between 2002 and 2015. Active applicants are defined as those who submitted certified rank order lists of programs. The red line in Figure 3 indicates the point at which there are equal numbers of positions and applicants.

- The number of fellowship positions per *active U.S. allopathic graduate* was 1.64 in 2015. Across all five years, there were more fellowship positions offered than there were U.S. allopathic graduate applicants.
- The ratio of fellowship positions to *all active applicants* was 0.89 for the 2015 appointment year, the same as in 2014.

Table 3 Number of Positions per Active Applicant, 2011-2015

Year	Number of Positions	Active Applicants		Positions Per Active Applicant	
		U.S. Allopathic Graduates	All	U.S. Allopathic Graduates	All
2011	6,276	3,848	7,774	1.63	0.81
2012	6,799	4,169	8,249	1.63	0.82
2013	7,245	4,423	8,653	1.64	0.84
2014	8,243	4,985	9,297	1.65	0.89
2015	8,503	5,172	9,538	1.64	0.89

Note: Applicants who withdrew or did not rank programs are excluded.

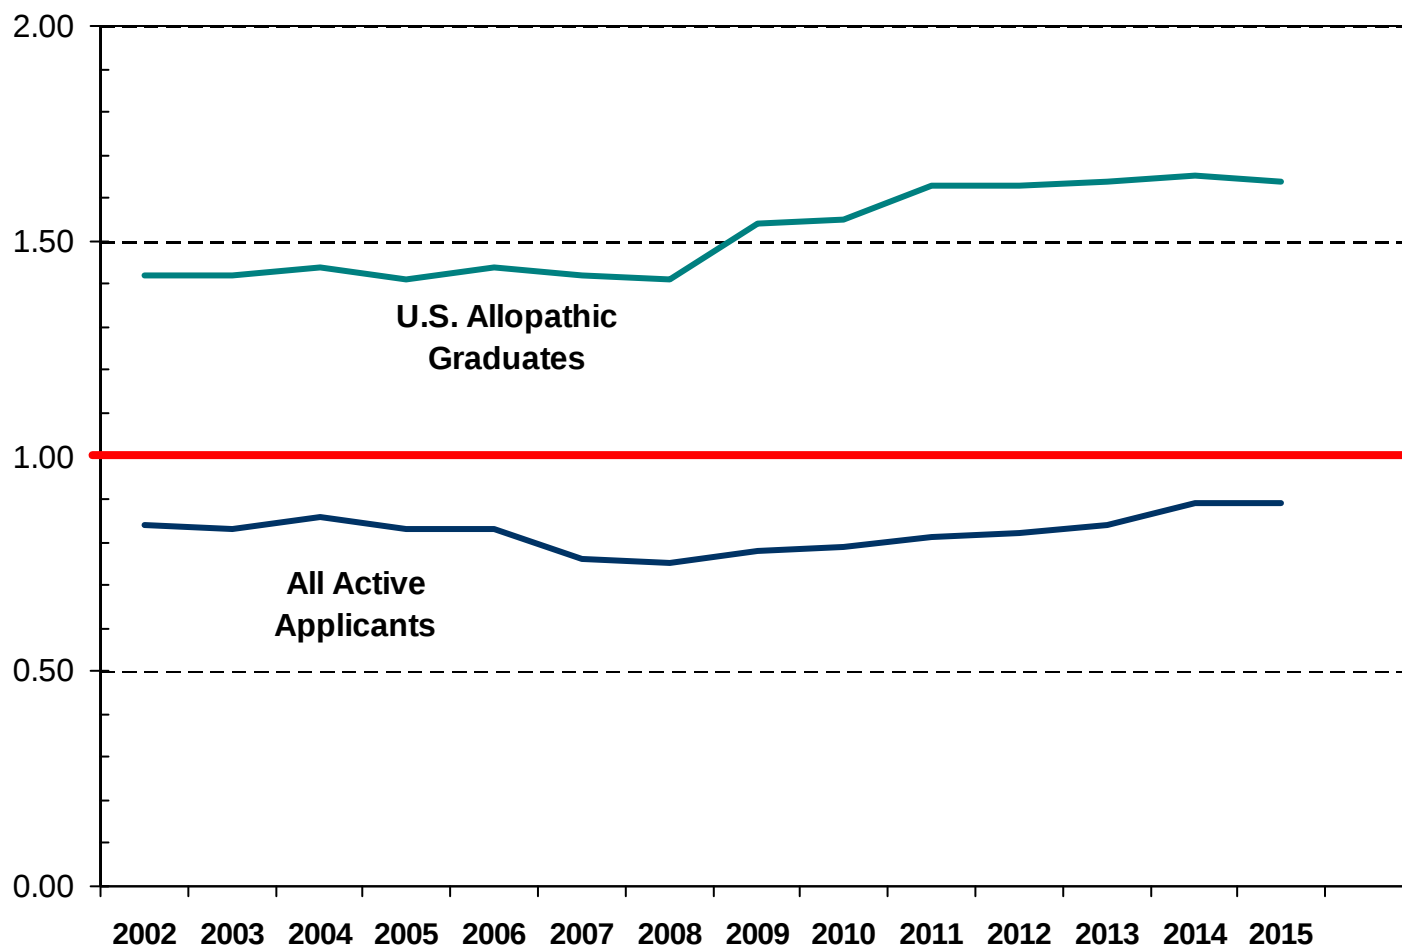

Figure 3 Positions per All Active and Active U.S. Allopathic Graduate Applicants, 2002-2015

Table 4

Table 4 displays applicants by applicant type in the SMS® Fellowship Matches between 2011 and 2015.

Applicants are grouped based on citizenship and medical school of graduation. For example, *U.S. allopathic graduates* are prior graduates of U.S. allopathic medical schools regardless of citizenship. *U.S. international medical graduates* are defined as U.S. citizens who are graduates of international medical schools, and *non-U.S. international medical graduates* are non-U.S. citizen graduates of international medical schools.

The total number of registrants for the 2015 appointment year was 10,036, an increase of 116 or 1.2 percent over 2014. The number of graduates of U.S. allopathic medical schools rose to 5,343 in 2015, a 3.0 percent increase. The number of non-U.S. citizen graduates of international medical schools declined for the third year in a row, and is down more than 400 applicants since 2012. With the exception of non U.S. citizen graduates of international medical schools and graduates of Fifth Pathway programs, registration numbers for all applicant types increased from 2014 to 2015.

An *active applicant* is one who submits a certified rank order list of programs. Between 2011 and 2015, the number of active applicants rose for graduates of U.S. allopathic medical schools, U.S. citizen graduates of international medical schools, and most notably for graduates of osteopathic medical schools (68.4% increase). Active applicant groups that increased faster than the overall rate of 22.7 percent between 2011 and 2015 are identified in Table 4 with green arrows.

The trends in the numbers of active applicants and their match rates can be seen graphically in Figure 4.

▲ Denotes that the percentage increase in active applicants for this group was greater than the overall increase of 22.7% for all active applicants between 2011 and 2015.

Figure 4

Number of Active Applicants and Percent Matched, 2011-2015

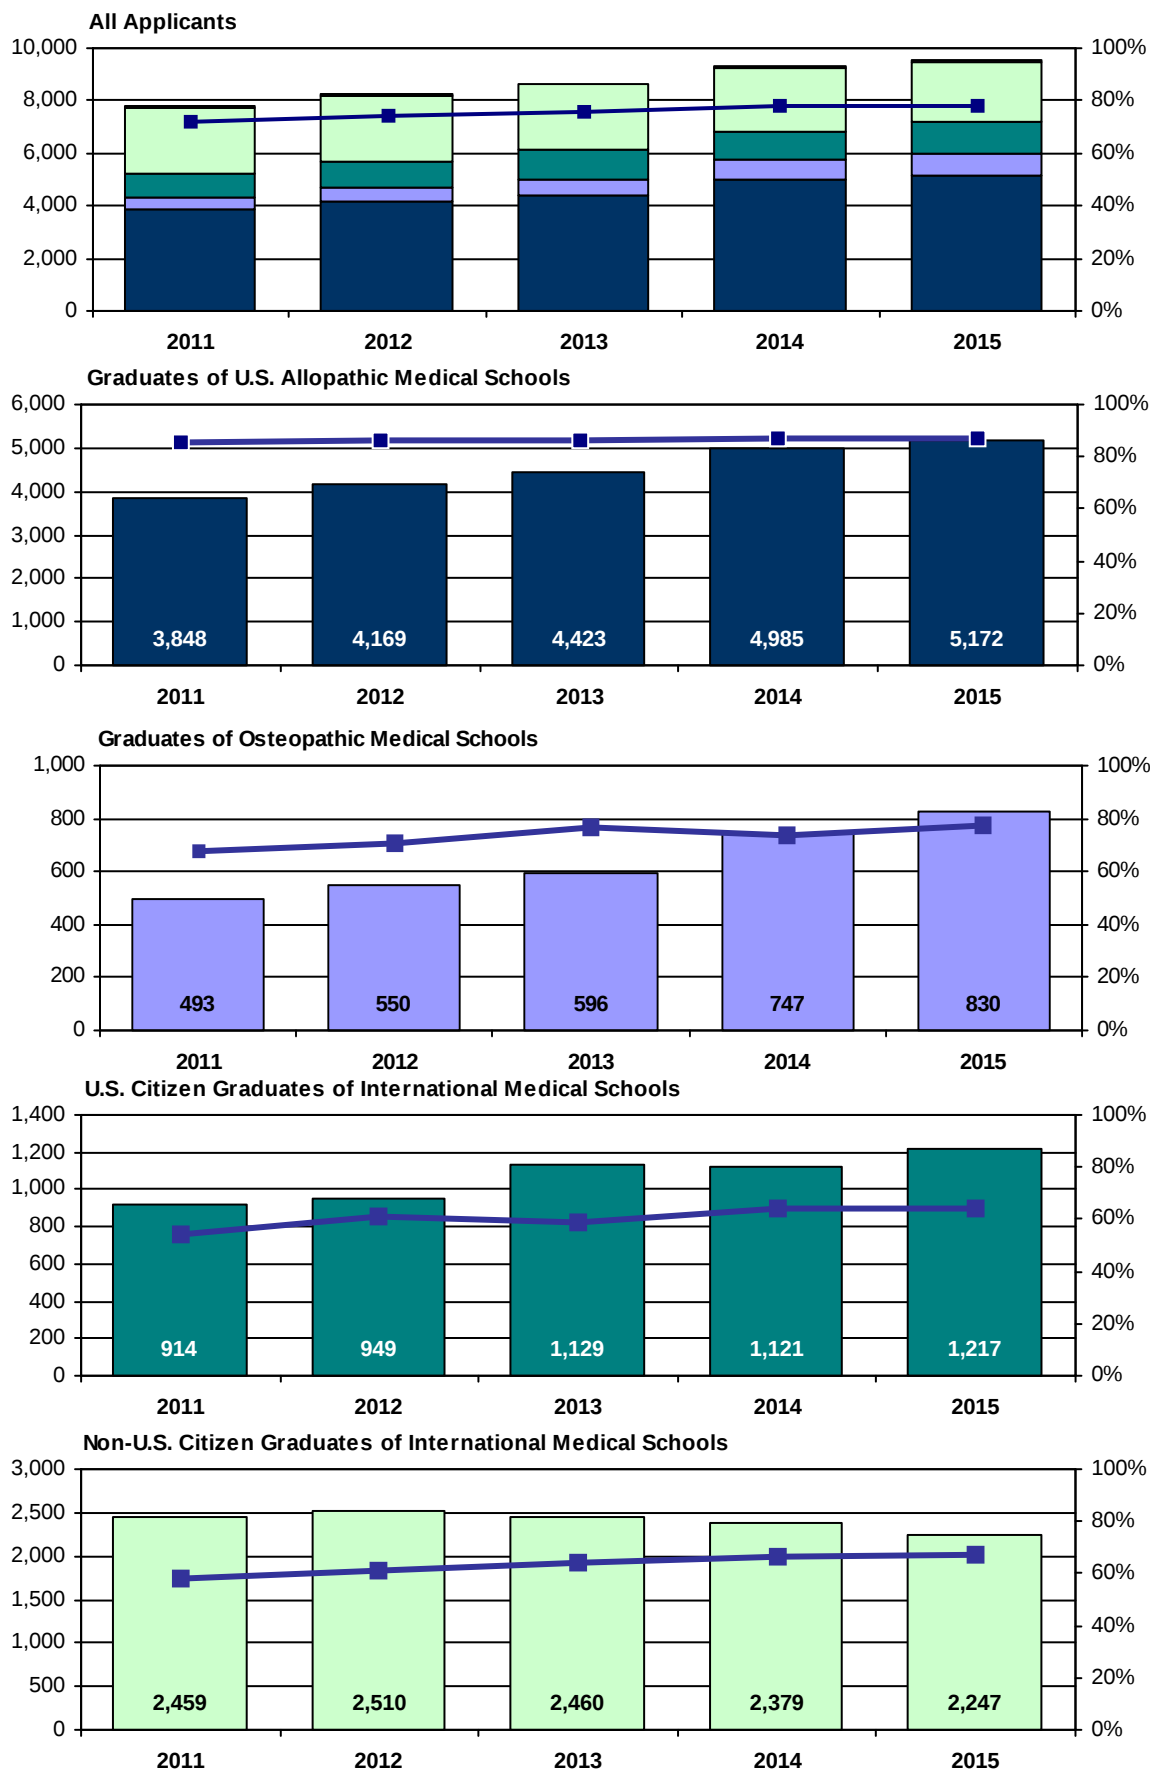

Table 5

Table 5 displays Fellowship Match results by specialty and applicant preferred choice. Applicant choice is determined by the placement of programs on applicants' rank order lists. *Preferred specialty* is defined as the specialty ranked first on the applicant's rank order list.

For single-specialty Matches (top half of table), the data presentation and interpretation are straightforward. For multi-specialty Matches (bottom half of table) they are slightly more complicated.

Single Specialty Matches

Using Allergy and Immunology as an example, 117 of 155 applicants matched. Of the 155 matched applicants, 43.2 percent matched to the program that was listed first on their rank order list, 14.2 percent matched to their second choice, 5.8 percent to their third choice, and 12.3 percent to a choice lower on their list. Thirty-eight applicants in the Allergy and Immunology Fellowship Match did not match, representing 24.5 percent of the total.

Combined Specialties Matches

To count unique applicants for the multi-specialty Matches, each applicant is included in the counts for the specialty ranked first on the rank order list (preferred specialty). Because applicants can match to other specialties within the same Match, "Matched in Another Specialty" data also are provided.

For example, Endocrinology, Diabetes, and Metabolism participated with 11 other specialties in the Medical Specialties Matching Program (MSMP). Of the 324 applicants who ranked Endocrinology, Diabetes, and Metabolism, 303 ranked it first. Overall, 252 applicants matched to Endocrinology, Diabetes, and Metabolism; of those who matched, 244 listed it as the preferred specialty.

Of the 324 applicants who ranked Endocrinology, Diabetes, and Metabolism, 143 (44.1%) matched to the program that was listed first on the rank order list, 45 (13.9%) matched to the second choice, 23 (7.1%) to the third choice, 41 (12.7%) to a choice lower on their list, and 9 (2.8%) matched to another specialty within the MSMP.

Of the 324 applicants who ranked Endocrinology, Diabetes, and Metabolism, 63 (19.4%) failed to match.

* In most cases specialties are grouped by the ACGME Review Committees (RCs). Some specialties are under the auspices of multiple RCs and some specialties (or programs within a specialty) are not accredited by the ACGME. In those cases the fellowship programs are grouped under one specialty deemed appropriate. The grouped specialties and their RCs are:

- Female Pelvic Medicine and Reconstructive Surgery: Urology and OB/GYN. Also includes programs that are not accredited by the ACGME
- Geriatric Medicine: Family Medicine and Internal Medicine
- Hand Surgery: Osteopathic Surgery, Surgery, and Plastic Surgery
- Medical Toxicology: Emergency Medicine and Preventive Medicine
- Pediatric Emergency Medicine: Pediatrics and Emergency Medicine
- Pediatric Surgery: Surgery. Also includes programs that are not accredited by the ACGME
- Sports Medicine: Family Medicine, Emergency Medicine and Physical Medicine & Rehabilitation
- Surgical Oncology: Surgery. Also includes programs that are not accredited by the ACGME

** Not accredited by the ACGME

*** Accredited by the American Board of Obstetrics and Gynecology (ABOG)

+ Applicants can rank multiple specialties within the combined specialties Matches. In addition, a small number of applicants participate in more than one Fellowship Match within a single appointment year.

Table 6

Table 6 displays data between 2011 and 2015 in the numbers of positions offered by specialty, as well as the percent filled by U.S. allopathic medical school graduates and by all applicants. To provide a complete picture, the table includes all specialties that participated during the five-year period regardless of when they joined and whether they remained in the SMS®. The data in Table 6 are calculated as a percentage of positions filled by applicant type, whereas the data in Table 2 are calculated as a percentage of matches by applicant type.

A graphical summary of the data for each specialty listed in Table 6 can be found on the following pages.

Table 6 Number of Positions Offered and Percent Filled by Graduates of U.S. Allopathic Medical Schools and All Applicants, 2011 - 2015

Specialties Matching Service®: Program Results for 2015 Appointments

This section of the report lists every hospital that participated in the SMS® along with the number of positions offered and filled for each of the institution's programs.

Hospitals are arranged alphabetically within state. The listing includes the hospital name (abbreviated in some instances); the program code, which identifies each program; the quota (the number of positions offered by the program); and the number of applicants matched with that program.

There are three reasons why a program that ranked an adequate number of applicants did not fill its quota: (1) the applicants preferred other programs; (2) the applicants did not rank the program; or (3) the applicants had withdrawn from the Match. There are also three reasons why applicants may not have matched with their most preferred program: (1) the program was filled with applicants it preferred; (2) the program did not rank the applicant; or (3) the program had withdrawn from the Match.

NRMP Program Code Structure

The NRMP program code is a **9-character** code based on the following criteria.

- The first four characters are the Institution Code.
- The fifth through the seventh characters represent specialty code obtained from the first three digits of the program's ACGME Code and designates the specialty (see below).
- The eighth character represents the program type: F - Fellowship program
- The ninth character represents the track:
 - 0 - first program/track in the specialty and program type at the institution
 - 1 - second program/track in the same specialty and program type at the same institution (i.e. 34th Street Clinic)
 - 2 - third program/track in the same specialty and program type at the same institution (i.e. Rural Clinic).

ACGME SPECIALTY CODES
