During the Supplemental Offer and Acceptance Program (SOAP), the *List of Unfilled Programs* provides access, restricted by each applicant's Match status, to specialties with unfilled programs.

- Fully unmatched applicants can view every program with unfilled positions.
- Partially matched applicants can view only the position types for which they are eligible.
- Fully matched applicants are unable to view any unfilled programs.

The *List of Unfilled Programs* will be available when the initial Match results are released. See the published Match Week and SOAP schedule on the NRMP website for specific dates and times.

The NRMP is the authoritative source for applicant SOAP eligibility status. Applicants are responsible for ensuring they apply only to positions for which they are eligible, as shown on the SOAP *List of Unfilled Programs* in the NRMP's R3 system.

---

After SOAP concludes, the *List of Unfilled Programs* will be updated in the Registration, Ranking, and Results® (R3®) system to show ALL unfilled programs, including programs not participating in SOAP. At that time, if you have not secured a position, you can contact programs on the list directly about their unfilled positions.
