The National Resident Matching Program® (NRMP®) is a private, not-for-profit corporation established in 1953 to optimize the rank-ordered choices of applicants and program directors for clinical training in the United States. The NRMP is not an application processing service, interview service, or accreditor; rather, it provides an impartial venue for matching applicants' and programs' preferences for each other using an internationally recognized mathematical algorithm.

### **Mission**

The National Resident Matching Program (The Match), known for its integrity and transparency, is the foremost provider of reliable and trusted global matching services. The Match facilitates the efficient placement of physician learners to U.S.-based residency and fellowship training programs and leverages its premier data and analyses to enhance the healthcare environment while fostering innovation and advancing professionalism across the transition to residency and the physician workforce.

### **Vision**

To empower a strong global physician workforce through pioneering and innovative matching solutions, novel data-driven insights, and national leadership on issues impacting medical education and ultimately, population health.

### **Values**

Our vision is achieved through our core values and principles:

- Ethics:
  - o We act with honesty, trustworthiness, and accountability
- Equity:
  - o We ensure access and opportunity for all
- Efficacy:
  - o We leverage our experience and expertise to advance transformative and efficient match processes
- Engagement:
  - o We cultivate respectful, collaborative, and productive relationships through active listening and courageous and candid communications

---

## About the Match

The first Main Residency Match® ("the Match") was conducted in 1952 when 10,400 internship positions were available for 6,000 graduating U.S. medical school seniors. By 1973, there were 19,000 positions for just over 10,000 graduating U.S. seniors.

In 1975 there was a decrease in the number PGY-1 (internship) positions that resulted from the incorporation of most internships into integrated residencies that encompass the full length of training. However, the number of PGY-1 positions rebounded quickly, increasing steadily with only a slight dip between 1994 and 1998. Since 1998, the number of PGY-1 positions has only increased. In the 2026 Main Residency Match, 41,126 PGY-1 positions were offered, an increase of 1,085 over 2025.

Similar to total PGY-1 positions, the total number of applicants has continued to grow. While there have been more fluctuations in the total number of applicants when compared to the more stable trajectory of total PGY-1 positions, the overall trend for applicants has been one of expansion. In 2026, there were 53,373 applicants who registered for the Match, representing an increase of 875 from 2025.

For more information about the NRMP, please visit: [www.nrmp.org](http://www.nrmp.org)

## Definitions/Organizations

ACGME	Accreditation Council for Graduate Medical Education.
Active Applicant	An applicant who submits a certified rank order list of programs.
All In Policy	Any program registering for the Match must attempt to fill all positions through the Match or another national matching plan.
Applicant Type	<p>The NRMP classifies applicants for the Main Residency Match into eight types:</p> <ul style="list-style-type: none"><li>• <i>Senior Student of U.S. MD Medical School (U.S. MD Senior)</i>: A student who graduated from Liaison Committee on Medical Education (LCME) accredited medical school between June 30 of the calendar year the Match opens and 9:00 pm eastern time on the Rank Order List Certification Deadline in the year of the Match; also referred to as a <i>MD senior</i>.</li><li>• <i>Senior Student of U.S. DO Medical School (DO Senior)</i>: A student who graduated from American Osteopathic Association (AOA) Commission on Osteopathic College Accreditation (COCA) accredited medical school between June 30 of the calendar year the Match opens and 9:00 pm eastern time on the Rank Order List Certification Deadline in the year of the Match; also referred to as a <i>DO Senior</i>.</li><li>• <i>Previous Graduate of U.S. MD Medical School (U.S. MD Grad)</i>: An applicant who graduated from a LCME-accredited medical school prior to the year of the Match. Previous U.S. MD graduates are not sponsored by their medical schools.</li><li>• <i>Previous Graduate of U.S. DO Medical School (U.S. DO Grad)</i>: An applicant who graduated from AOA COCA-accredited medical school prior to the year of the Match. Previous U.S. DO graduates are not sponsored by their medical schools.</li><li>• <i>Graduate of Canadian Medical School (Canadian)</i>: A graduate of a Canadian school of medicine accredited by the Committee on Accreditation of Canadian Medical Schools (CACMS) prior to July 1, 2025. Applicants who graduated from Canadian medical schools after July 1, 2025 are considered International Medical Graduates (IMGs).</li><li>• <i>Graduate of Fifth Pathway Program (5th Pathway)</i>: A graduate of a U.S. Fifth Pathway program.</li><li>• <i>U.S. Citizen Student/Graduate of International Medical School (U.S. IMG)</i>: A U.S. citizen who enrolled in, or a graduate of, a medical school outside the United States that is not accredited by the LCME or the AOA COCA.</li><li>• <i>Non-U.S. Citizen Student/Graduate of International Medical School (Non-U.S. IMG)</i>: A non-U.S. citizen who enrolled in, or a graduate of, a medical school outside the United States that is not accredited by the LCME or the AOA COCA.</li></ul>

In this report, applicant types are sometimes combined into a smaller number of groups.

- *Foreign-Trained Physicians*: Includes U.S. citizen and non-U.S. citizen students and graduates of international medical schools.
- *Others*: Includes previous graduates of MD and DO medical schools, Canadian and Fifth Pathway applicants.

Couple	Any two applicants who register as a couple in the Match. The NRMP allows couples to form pairs of choices on their primary rank order lists, which are considered in rank order when the matching algorithm is processed. Couples match to the most preferred pair of programs where each partner has been offered a position.
--------	---

PGY-1 & PGY-2	Post-graduate year one and post-graduate year two.
---------------	--

Program Type	<p>The NRMP classifies programs for the Main Residency Match into five types:</p> <ul style="list-style-type: none"> <li>• <i>Categorical</i> ("C") programs: Post graduate year one (PGY-1) programs that provide the full training required for board certification in a specialty.</li> <li>• <i>Categorical Primary Care</i> ("M") programs: PGY-1 programs in medicine and pediatrics that provide a training emphasis on primary care.</li> <li>• <i>Preliminary</i> ("P") programs: One-year transitional or specialty programs.</li> <li>• <i>Advanced</i> ("A") programs: Specialty programs that begin the year after the Match and after one or more years of required preliminary training.</li> <li>• <i>Physician</i> ("R") programs: Specialty programs that begin in the year of the Match and are reserved for physicians with prior graduate medical education. Positions in these programs are also known as "Physician Positions".</li> </ul>
SOAP	<p>The Supplemental Offer and Acceptance Program® (SOAP®) is a process by which eligible unmatched applicants in the Main Residency Match apply for and are offered positions that did not fill when the matching algorithm was processed.</p>

\* Applicants can rank multiple specialties. As an example, in 2026, 2,171 applicants matched to either a PGY-1 or a PGY-2 Advanced Anesthesiology positions; of those applicants, 1,528 were U.S. MD seniors.

\*\* Physician (R) positions are PGY-2 positions starting in the year of the Match that are reserved for applicants who have had prior graduate medical education. Physician positions are not available to senior medical students.

**Note:** A single **Medicine-Aerospace Medicine** program participated in the Match offering one position. That position was **reverted** to an **Internal Medicine (Categorical)** program when the matching algorithm was processed, thereby reducing the number of available positions in the program to zero.

\* Applicants can rank multiple specialties. As an example, in 2026, 2,171 applicants matched to either a PGY-1 or a PGY-2 Advanced Anesthesiology positions; of those applicants, 383 were U.S. DO seniors.

\*\* Physician (R) positions are PGY-2 positions starting in the year of the Match that are reserved for applicants who have had prior graduate medical education. Physician positions are not available to senior medical students.

**Note:** A single **Medicine-Aerospace Medicine** program participated in the Match offering one position. That position was **reverted** to an **Internal Medicine (Categorical)** program when the matching algorithm was processed, thereby reducing the number of available positions in the program to zero.

\* Applicants can rank multiple specialties. As an example, in 2026, 2,171 applicants matched to either a PGY-1 or a PGY-2 Advanced Anesthesiology positions; of those applicants, 87 were Non-U.S. IMGs.

\*\* Physician (R) positions are PGY-2 positions starting in the year of the Match that are reserved for applicants who have had prior graduate medical education. Physician positions are not available to senior medical students.

**Note:** A single **Medicine-Aerospace Medicine** program participated in the Match offering one position. That position was **reverted** to an **Internal Medicine (Categorical)** program when the matching algorithm was processed, thereby reducing the number of available positions in the program to zero.

▲▼ Denotes increase/decrease in positions offered of more than 10 percent and 10 positions between 2022 and 2026.

\* Physician (R) positions are PGY-2 positions starting in the year of the Match that are reserved for applicants who have had prior graduate medical education. Physician positions are not available to senior medical students.

**Note:** A single **Medicine-Aerospace Medicine** program participated in the Match offering one position. That position was **reverted** to an **Internal Medicine (Categorical)** program when the matching algorithm was processed, thereby reducing the number of available positions in the program to zero.

▲Denotes that the percentage increase in active applicants for this group was greater than 10 percent between 2022 and 2026.

▼Denotes that the percentage decrease in active applicants for this group was greater than 10 percent between 2022 and 2026.

\* Applicants who submitted a certified rank order list of programs

**Note on Match rates:** Match rates are based on all active applicants regardless of their ranking behavior. Therefore, applicants who matched to PGY-1 positions are counted as matched even if they ranked and did not match to a PGY-2 position. Applicants who ranked only advanced and physician (R) programs are counted as unmatched in this table because they did not match to a PGY-1 position.

**Note on Graduates of Canadian Medical Schools:** Effective July 1, 2025, the Committee on Accreditation of Canadian Medical Schools (CACMS) has assumed sole responsibility for accrediting medical education programs in Canada. These programs are no longer accredited by the Liaison Committee on Medical Education (LCME). Canadian medical school graduates establish their eligibility for USMLE and ACGME-accredited residency programs through ECFMG Certification. As a result, individuals who graduate from Canadian medical schools on or after July 1, 2025, are considered international medical graduates (IMGs) for the purpose of entering U.S. graduate medical education.

▲/▼ Denotes increase/decrease in number of positions filled by MD seniors of more than 10 percent and 10 positions between 2022 and 2026.

**Note:** A single **Medicine-Aerospace Medicine** program participated in the Match offering one position. That position was **reverted** to an **Internal Medicine (Categorical)** program when the matching algorithm was processed, thereby reducing the number of available positions in the program to zero.

▲ Denotes increase/decrease in number of positions filled by DO seniors of more than 10 percent and 10 positions between 2022 and 2026.

**Note:** A single **Medicine-Aerospace Medicine** program participated in the Match offering one position. That position was **reverted** to an **Internal Medicine (Categorical)** program when the matching algorithm was processed, thereby reducing the number of available positions in the program to zero.

▲ Denotes increase/decrease in number of positions filled by U.S. IMGs of more than 10 percent and 10 positions between 2022 and 2026.

**Note:** A single **Medicine-Aerospace Medicine** program participated in the Match offering one position. That position was **reverted** to an **Internal Medicine (Categorical)** program when the matching algorithm was processed, thereby reducing the number of available positions in the program to zero.

▼ Denotes increase/decrease in matched U.S. MD seniors of more than 10 percent and 10 positions between 2022 and 2026.

**Note:** A single **Medicine-Aerospace Medicine** program participated in the Match offering one position. That position was [reverted](#) to an **Internal Medicine (Categorical)** program when the matching algorithm was processed, thereby reducing the number of available positions in the program to zero.
