This report lists every institution that participated in the Main Residency Match®, along with the number of positions offered and filled for each of the institution's programs over the past five appointment years. Presenting five years of data not only provides information on the current Match year but allows for a side-by-side comparison of this information over time. Before 2025, information regarding the current appointment year was included in *Results and Data: Main Residency Match*. Beginning in 2025, program results are exclusively provided within this dedicated report.

Sponsoring institutions are arranged alphabetically within the state. The listing includes the institution name (abbreviated in some instances); the program code, which identifies each program; the quota (the number of positions offered by the program in the Match); and the number of applicants matched with that program for each of the last five appointment years.

There are three reasons why a program that ranked an adequate number of applicants did not fill its quota: (1) the applicants preferred other programs; (2) the applicants did not rank the program; or (3) the applicants had withdrawn from the Match.

There are also three reasons why applicants may not match with their most preferred program: (1) the program was filled with applicants it preferred; (2) the program did not rank the applicant; or (3) the program had withdrawn from the Match.

The following types of positions are offered through the NRMP:

- Categorical Positions ("C"): Post graduate year one (PGY-1) positions in programs that provide the full training required for board certification in a specialty.
- Categorical Primary Care Positions ("M"): PGY-1 positions in medicine and pediatrics that provide a training emphasis on primary care.
- Preliminary Positions ("P"): One-year positions in transitional or specialty programs
- Advanced Positions ("A"): Positions in specialty programs that begin the year after the Match and after one or more years of required preliminary training.
- Reserved Positions ("R"): PGY-2 positions in specialty programs that begin in the year of the Match and are reserved for physicians with prior graduate medical education. These positions are also known as "Physician Positions".

NRMP Program Code Structure

The NRMP program code is a **9-11 character** code based on the following criteria.

- The first four characters are the Institution Code.
- The fifth through the seventh characters represent the specialty code obtained from the first three digits of the program's ACGME Code and designates the specialty.
Note: See ACGME Specialty Codes on the following page.
- The eighth character represents the program type:
 - P - Preliminary program
 - C - Categorical program
 - M - Primary care categorical program
 - A - Advanced program
 - R - Physician reserved program
- The ninth through eleven character represents the track:
 - 0 - first program/track in the specialty and program type at the institution
 - 1 - second program/track in the same specialty and program type at the same institution (e.g. 34th Street Clinic)
 - 2 - third program/track in the same specialty and program type at the same institution (e.g. Rural Clinic).

Examples:

Program Code: **3099120C###**

Institution: **3099** - University at Buffalo SOM

ACGME Code: **1203521489** - Family Medicine

Program Type: **C** - Categorical

First Track: 0 - Buffalo General Hospital (Main Program)

Program Code: 3099120C0

Second Track: 1 - Erie County

Program Code: 3099120C1

Third Track: 2 - Millard Fillmore

Program Code: 3099120C2

ACGME SPECIALTY CODES AND DESCRIPTIONS
